

Micron Technology, Inc.

# 2024 CDP Corporate Questionnaire

# Contents

<b>C1. Introduction</b> .....	<b>7</b>
(1.1) In which language are you submitting your response? .....	7
(1.2) Select the currency used for all financial information disclosed throughout your response. ....	7
(1.3) Provide an overview and introduction to your organization. ....	7
(1.4) State the end date of the year for which you are reporting data. For emissions data, indicate whether you will be providing emissions data for past reporting years. ....	8
(1.4.1) What is your organization’s annual revenue for the reporting period? .....	8
(1.5) Provide details on your reporting boundary. ....	8
(1.6) Does your organization have an ISIN code or another unique identifier (e.g., Ticker, CUSIP, etc.)? .....	8
(1.7) Select the countries/areas in which you operate. ....	9
(1.8) Are you able to provide geolocation data for your facilities? .....	9
(1.24) Has your organization mapped its value chain? .....	10
(1.24.1) Have you mapped where in your direct operations or elsewhere in your value chain plastics are produced, commercialized, used, and/or disposed of? .....	10
<b>C2. Identification, assessment, and management of dependencies, impacts, risks, and opportunities</b> .....	<b>10</b>
(2.1) How does your organization define short-, medium-, and long-term time horizons in relation to the identification, assessment, and management of your environmental dependencies, impacts, risks, and opportunities? .....	10
(2.2) Does your organization have a process for identifying, assessing, and managing environmental dependencies and/or impacts? .....	12
(2.2.1) Does your organization have a process for identifying, assessing, and managing environmental risks and/or opportunities? .....	12
(2.2.2) Provide details of your organization’s process for identifying, assessing, and managing environmental dependencies, impacts, risks, and/or opportunities.....	12
(2.5) Does your organization identify and classify potential water pollutants associated with its activities that could have a detrimental impact on water ecosystems or human health?.....	15
(2.5.1) Describe how your organization minimizes the adverse impacts of potential water pollutants on water ecosystems or human health associated with your activities. ....	15
<b>C3. Disclosure of risks and opportunities</b> .....	<b>16</b>

(3.1) Have you identified any environmental risks which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future? .....	16
(3.1.1) Provide details of the environmental risks identified which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future. ....	17
(3.3) In the reporting year, was your organization subject to any fines, enforcement orders, and/or other penalties for water-related regulatory violations? ..	32
(3.5) Are any of your operations or activities regulated by a carbon pricing system (i.e. ETS, Cap & Trade or Carbon Tax)?.....	32
(3.5.1) Select the carbon pricing regulation(s) which impact your operations.....	32
(3.5.3) Complete the following table for each of the tax systems you are regulated by. ....	33
(3.5.4) What is your strategy for complying with the systems you are regulated by or anticipate being regulated by? .....	33
(3.6) Have you identified any environmental opportunities which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future? .....	33
(3.6.1) Provide details of the environmental opportunities identified which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future. ....	34
<b>C4. Governance .....</b>	<b>41</b>
(4.1) Does your organization have a board of directors or an equivalent governing body? .....	41
(4.1.1) Is there board-level oversight of environmental issues within your organization? .....	41
(4.1.2) Identify the positions (do not include any names) of the individuals or committees on the board with accountability for environmental issues and provide details of the board's oversight of environmental issues. ....	42
(4.3) Is there management-level responsibility for environmental issues within your organization? .....	44
(4.3.1) Provide the highest senior management-level positions or committees with responsibility for environmental issues (do not include the names of individuals). ....	44
(4.5) Do you provide monetary incentives for the management of environmental issues, including the attainment of targets? .....	46
(4.5.1) Provide further details on the monetary incentives provided for the management of environmental issues (do not include the names of individuals). ....	47
(4.6) Does your organization have an environmental policy that addresses environmental issues? .....	48
(4.6.1) Provide details of your environmental policies. ....	48
(4.10) Are you a signatory or member of any environmental collaborative frameworks or initiatives? .....	49
(4.11) In the reporting year, did your organization engage in activities that could directly or indirectly influence policy, law, or regulation that may (positively or negatively) impact the environment? .....	50

(4.12) Have you published information about your organization’s response to environmental issues for this reporting year in places other than your CDP response? .....	51
(4.12.1) Provide details on the information published about your organization’s response to environmental issues for this reporting year in places other than your CDP response. Please attach the publication. ....	51
<b>C5. Business strategy .....</b>	<b>54</b>
(5.1) Does your organization use scenario analysis to identify environmental outcomes? .....	54
(5.1.1) Provide details of the scenarios used in your organization’s scenario analysis. ....	54
(5.10) Does your organization use an internal price on environmental externalities?.....	55
(5.11) Do you engage with your value chain on environmental issues?.....	56
(5.11.1) Does your organization assess and classify suppliers according to their dependencies and/or impacts on the environment?.....	56
(5.11.2) Does your organization prioritize which suppliers to engage with on environmental issues? .....	57
(5.11.5) Do your suppliers have to meet environmental requirements as part of your organization’s purchasing process? .....	57
(5.11.6) Provide details of the environmental requirements that suppliers have to meet as part of your organization’s purchasing process, and the compliance measures in place. ....	58
(5.11.7) Provide further details of your organization’s supplier engagement on environmental issues.....	58
(5.11.9) Provide details of any environmental engagement activity with other stakeholders in the value chain.....	60
(5.13) Has your organization already implemented any mutually beneficial environmental initiatives due to CDP Supply Chain member engagement?.....	60
<b>C6. Environmental Performance - Consolidation Approach .....</b>	<b>61</b>
(6.1) Provide details on your chosen consolidation approach for the calculation of environmental performance data.....	61
<b>C7. Environmental performance - Climate Change .....</b>	<b>61</b>
(7.1) Is this your first year of reporting emissions data to CDP? .....	61
(7.1.1) Has your organization undergone any structural changes in the reporting year, or are any previous structural changes being accounted for in this disclosure of emissions data?.....	61
(7.1.2) Has your emissions accounting methodology, boundary, and/or reporting year definition changed in the reporting year? .....	62
(7.1.3) Have your organization’s base year emissions and past years’ emissions been recalculated as a result of any changes or errors reported in 7.1.1 and/or 7.1.2?.....	62
(7.2) Select the name of the standard, protocol, or methodology you have used to collect activity data and calculate emissions. ....	63
(7.3) Describe your organization’s approach to reporting Scope 2 emissions. ....	63

(7.4) Are there any sources (e.g. facilities, specific GHGs, activities, geographies, etc.) of Scope 1, Scope 2 or Scope 3 emissions that are within your selected reporting boundary which are not included in your disclosure?.....	63
(7.4.1) Provide details of the sources of Scope 1, Scope 2, or Scope 3 emissions that are within your selected reporting boundary which are not included in your disclosure. ....	63
(7.5) Provide your base year and base year emissions. ....	65
(7.6) What were your organization’s gross global Scope 1 emissions in metric tons CO2e? .....	66
(7.7) What were your organization’s gross global Scope 2 emissions in metric tons CO2e? .....	66
(7.8) Account for your organization’s gross global Scope 3 emissions, disclosing and explaining any exclusions. ....	66
(7.9) Indicate the verification/assurance status that applies to your reported emissions. ....	75
(7.9.1) Provide further details of the verification/assurance undertaken for your Scope 1 emissions, and attach the relevant statements. ....	75
(7.9.2) Provide further details of the verification/assurance undertaken for your Scope 2 emissions and attach the relevant statements. ....	76
(7.10) How do your gross global emissions (Scope 1 and 2 combined) for the reporting year compare to those of the previous reporting year? .....	78
(7.10.1) Identify the reasons for any change in your gross global emissions (Scope 1 and 2 combined), and for each of them specify how your emissions compare to the previous year. ....	78
(7.10.2) Are your emissions performance calculations in 7.10 and 7.10.1 based on a location-based Scope 2 emissions figure or a market-based Scope 2 emissions figure? .....	84
(7.12) Are carbon dioxide emissions from biogenic carbon relevant to your organization? .....	84
(7.15) Does your organization break down its Scope 1 emissions by greenhouse gas type? .....	84
(7.15.1) Break down your total gross global Scope 1 emissions by greenhouse gas type and provide the source of each used global warming potential (GWP). ....	85
(7.16) Break down your total gross global Scope 1 and 2 emissions by country/area. ....	88
(7.17) Indicate which gross global Scope 1 emissions breakdowns you are able to provide. ....	89
(7.17.3) Break down your total gross global Scope 1 emissions by business activity. ....	89
(7.20) Indicate which gross global Scope 2 emissions breakdowns you are able to provide. ....	89
(7.20.1) Break down your total gross global Scope 2 emissions by business division. ....	89
(7.22) Break down your gross Scope 1 and Scope 2 emissions between your consolidated accounting group and other entities included in your response. ....	89
(7.23) Is your organization able to break down your emissions data for any of the subsidiaries included in your CDP response? .....	90
(7.27) What are the challenges in allocating emissions to different customers, and what would help you to overcome these challenges? .....	91

(7.29) What percentage of your total operational spend in the reporting year was on energy? .....	91
(7.30) Select which energy-related activities your organization has undertaken. ....	91
(7.30.1) Report your organization’s energy consumption totals (excluding feedstocks) in MWh. ....	92
(7.30.6) Select the applications of your organization’s consumption of fuel. ....	95
(7.30.7) State how much fuel in MWh your organization has consumed (excluding feedstocks) by fuel type.....	95
(7.30.9) Provide details on the electricity, heat, steam, and cooling your organization has generated and consumed in the reporting year.....	102
(7.30.14) Provide details on the electricity, heat, steam, and/or cooling amounts that were accounted for at a zero or near-zero emission factor in the market-based Scope 2 figure reported in 7.7.....	104
(7.30.16) Provide a breakdown by country/area of your electricity/heat/steam/cooling consumption in the reporting year.....	113
(7.45) Describe your gross global combined Scope 1 and 2 emissions for the reporting year in metric tons CO2e per unit currency total revenue and provide any additional intensity metrics that are appropriate to your business operations.....	116
(7.53) Did you have an emissions target that was active in the reporting year?.....	118
(7.53.1) Provide details of your absolute emissions targets and progress made against those targets.....	118
(7.53.2) Provide details of your emissions intensity targets and progress made against those targets.....	125
(7.54) Did you have any other climate-related targets that were active in the reporting year? .....	128
(7.54.1) Provide details of your targets to increase or maintain low-carbon energy consumption or production.....	128
(7.55) Did you have emissions reduction initiatives that were active within the reporting year? Note that this can include those in the planning and/or implementation phases.....	130
(7.55.1) Identify the total number of initiatives at each stage of development, and for those in the implementation stages, the estimated CO2e savings.....	131
(7.55.2) Provide details on the initiatives implemented in the reporting year in the table below. ....	131
(7.55.3) What methods do you use to drive investment in emissions reduction activities?.....	139
(7.73) Are you providing product level data for your organization’s goods or services? .....	140
(7.74) Do you classify any of your existing goods and/or services as low-carbon products?.....	140
(7.74.1) Provide details of your products and/or services that you classify as low-carbon products.....	140
(7.79) Has your organization canceled any project-based carbon credits within the reporting year?.....	141
<b>C9. Environmental performance - Water security .....</b>	<b>141</b>
(9.1) Are there any exclusions from your disclosure of water-related data? .....	141

(9.1.1) Provide details on these exclusions.....	141
(9.2) Across all your operations, what proportion of the following water aspects are regularly measured and monitored? .....	142
(9.2.2) What are the total volumes of water withdrawn, discharged, and consumed across all your operations, how do they compare to the previous reporting year, and how are they forecasted to change? .....	149
(9.2.4) Indicate whether water is withdrawn from areas with water stress, provide the volume, how it compares with the previous reporting year, and how it is forecasted to change.....	152
(9.2.7) Provide total water withdrawal data by source.....	153
(9.2.8) Provide total water discharge data by destination.....	156
(9.2.9) Within your direct operations, indicate the highest level(s) to which you treat your discharge.....	158
(9.2.10) Provide details of your organization's emissions of nitrates, phosphates, pesticides, and other priority substances to water in the reporting year..	160
(9.3) In your direct operations and upstream value chain, what is the number of facilities where you have identified substantive water-related dependencies, impacts, risks, and opportunities? .....	160
(9.3.2) For the facilities in your direct operations referenced in 9.3.1, what proportion of water accounting data has been third party verified? .....	161
(9.4) Could any of your facilities reported in 9.3.1 have an impact on a requesting CDP supply chain member?.....	164
(9.5) Provide a figure for your organization's total water withdrawal efficiency.....	164
(9.14) Do you classify any of your current products and/or services as low water impact? .....	164
(9.15) Do you have any water-related targets? .....	165
(9.15.1) Indicate whether you have targets relating to water pollution, water withdrawals, WASH, or other water-related categories. ....	165
(9.15.2) Provide details of your water-related targets and the progress made. ....	165
<b>C13. Further information &amp; sign off.....</b>	<b>167</b>
(13.1) Indicate if any environmental information included in your CDP response (not already reported in 7.9.1/2/3, 8.9.1/2/3/4, and 9.3.2) is verified and/or assured by a third party? .....	167
(13.1.1) Which data points within your CDP response are verified and/or assured by a third party, and which standards were used? .....	167
(13.3) Provide the following information for the person that has signed off (approved) your CDP response. ....	168

## C1. Introduction

### (1.1) In which language are you submitting your response?

Select from:

English

### (1.2) Select the currency used for all financial information disclosed throughout your response.

Select from:

USD

### (1.3) Provide an overview and introduction to your organization.

#### (1.3.2) Organization type

Select from:

Publicly traded organization

#### (1.3.3) Description of organization

*Micron is a global leader in memory and storage solutions. With a strong focus on our customers, technology leadership, product quality, manufacturing and operational excellence, Micron delivers a rich portfolio of high-performance DRAM, NAND and NOR memory and storage products. Every day, the innovations that our people create fuel the data economy, enabling advances in AI and 5G applications that unleash opportunities — from the data center to the intelligent edge and across client and mobile user experiences. Micron's team members live our values: collaboration, customer focus, innovation, people and tenacity. We share a common goal to pursue technology and product innovation and manufacturing excellence for our customers, partners, communities and society. And that excellence is being recognized worldwide through awards and honors for our business and innovation, our people and culture, and our sustainability and operations. For over 45 years and with more than 55,000 patents granted (and growing), Micron has delivered products that have helped transform how the world uses information to enrich life for all.*

**(1.4) State the end date of the year for which you are reporting data. For emissions data, indicate whether you will be providing emissions data for past reporting years.**

End date of reporting year	Alignment of this reporting period with your financial reporting period	Indicate if you are providing emissions data for past reporting years
12/31/2023	Select from: <input checked="" type="checkbox"/> No	Select from: <input checked="" type="checkbox"/> No

**(1.4.1) What is your organization's annual revenue for the reporting period?**

16181000000 USD

**(1.5) Provide details on your reporting boundary.**

Is your reporting boundary for your CDP disclosure the same as that used in your financial statements?
Select from: <input checked="" type="checkbox"/> Yes

**(1.6) Does your organization have an ISIN code or another unique identifier (e.g., Ticker, CUSIP, etc.)?**

	Does your organization use this unique identifier?	Provide your unique identifier
ISIN code - bond	Select from: <input checked="" type="checkbox"/> Yes	US5951121038
ISIN code - equity	Select from: <input checked="" type="checkbox"/> Yes	US5951121038
CUSIP number	Select from: <input checked="" type="checkbox"/> Yes	595112103

	Does your organization use this unique identifier?	Provide your unique identifier
Ticker symbol	Select from: <input checked="" type="checkbox"/> Yes	MU
SEDOL code	Select from: <input checked="" type="checkbox"/> No	
LEI number	Select from: <input checked="" type="checkbox"/> No	
D-U-N-S number	Select from: <input checked="" type="checkbox"/> Yes	093120871
Other unique identifier	Select from: <input checked="" type="checkbox"/> No	

**(1.7) Select the countries/areas in which you operate.**

Select all that apply

- China
- Japan
- Malaysia
- Singapore
- Taiwan, China
- United States of America

**(1.8) Are you able to provide geolocation data for your facilities?**

Are you able to provide geolocation data for your facilities?
Select from: <input checked="" type="checkbox"/> No, this is confidential data

**(1.24) Has your organization mapped its value chain?**

Value chain mapped	Value chain stages covered in mapping
<i>Select from:</i> <input checked="" type="checkbox"/> Yes, we have mapped or are currently in the process of mapping our value chain	<i>Select all that apply</i> <input checked="" type="checkbox"/> Upstream value chain <input checked="" type="checkbox"/> Downstream value chain

**(1.24.1) Have you mapped where in your direct operations or elsewhere in your value chain plastics are produced, commercialized, used, and/or disposed of?**

Plastics mapping	Primary reason for not mapping plastics in your value chain
<i>Select from:</i> <input checked="" type="checkbox"/> No, and we do not plan to within the next two years	<i>Select from:</i> <input checked="" type="checkbox"/> Judged to be unimportant or not relevant

**C2. Identification, assessment, and management of dependencies, impacts, risks, and opportunities**

**(2.1) How does your organization define short-, medium-, and long-term time horizons in relation to the identification, assessment, and management of your environmental dependencies, impacts, risks, and opportunities?**

**Short-term**

**(2.1.1) From (years)**

1

**(2.1.3) To (years)**

1

**(2.1.4) How this time horizon is linked to strategic and/or financial planning**

*Time horizons used for enterprise risk assessment when evaluating likelihood*

**Medium-term**

**(2.1.1) From (years)**

1

**(2.1.3) To (years)**

5

**(2.1.4) How this time horizon is linked to strategic and/or financial planning**

*Time horizons used for enterprise risk assessment when evaluating likelihood*

**Long-term**

**(2.1.1) From (years)**

5

**(2.1.2) Is your long-term time horizon open ended?**

Select from:

No

**(2.1.3) To (years)**

10

**(2.1.4) How this time horizon is linked to strategic and/or financial planning**

*Time horizons used for enterprise risk assessment when evaluating likelihood*

**(2.2) Does your organization have a process for identifying, assessing, and managing environmental dependencies and/or impacts?**

Process in place	Dependencies and/or impacts evaluated in this process
<i>Select from:</i> <input checked="" type="checkbox"/> Yes	<i>Select from:</i> <input checked="" type="checkbox"/> Both dependencies and impacts

**(2.2.1) Does your organization have a process for identifying, assessing, and managing environmental risks and/or opportunities?**

Process in place	Risks and/or opportunities evaluated in this process	Is this process informed by the dependencies and/or impacts process?
<i>Select from:</i> <input checked="" type="checkbox"/> Yes	<i>Select from:</i> <input checked="" type="checkbox"/> Both risks and opportunities	<i>Select from:</i> <input checked="" type="checkbox"/> Yes

**(2.2.2) Provide details of your organization’s process for identifying, assessing, and managing environmental dependencies, impacts, risks, and/or opportunities.**

**(2.2.2.1) Environmental issue**

*Select all that apply*

- Climate change
- Water

**(2.2.2.2) Indicate which of dependencies, impacts, risks, and opportunities are covered by the process for this environmental issue**

*Select all that apply*

- Dependencies
- Impacts
- Risks
- Opportunities

### (2.2.2.3) Value chain stages covered

*Select all that apply*

- Direct operations
- Upstream value chain
- Downstream value chain

### (2.2.2.8) Frequency of assessment

*Select from:*

- Annually

### (2.2.2.9) Time horizons covered

*Select all that apply*

- Short-term
- Medium-term
- Long-term

### (2.2.2.10) Integration of risk management process

*Select from:*

- Integrated into multi-disciplinary organization-wide risk management process

### (2.2.2.12) Tools and methods used

#### **Commercially/publicly available tools**

- EcoVadis
- WRI Aqueduct

#### **Enterprise Risk Management**

- Enterprise Risk Management
- Internal company methods

### International methodologies and standards

- IPCC Climate Change Projections
- ISO 14001 Environmental Management Standard

### Other

- External consultants
- Materiality assessment

### (2.2.2.14) Partners and stakeholders considered

Select all that apply

- Customers
- Employees
- Investors
- Suppliers
- Regulators
- Local communities

### (2.2.2.15) Has this process changed since the previous reporting year?

Select from:

- No

### (2.2.2.16) Further details of process

*Micron works to better understand and address sustainability and climate-related risks and opportunities through collaboration among our sustainability, environmental health and safety, and responsible sourcing programs, along with our various risk management organizations. Current efforts include improving operational energy and water efficiency; working toward our long-term goals and targets for energy, emissions, water and waste; and monitoring regulatory, customer, investor and other stakeholder expectations. Micron's goal is to integrate risk management practices companywide to improve decision-making in governance, strategy, objective-setting and daily operations. We do this by providing tools and knowledge, facilitating open global communication and monitoring continuously. Micron has a network of risk management teams operating across the company, including in our environment health & safety (EHS), information technology (IT), business continuity, global quality management, legal and risk advisory services groups. Our ERM organization accumulates key risk information from the executive risk committee, made up of select company executives, along with risk assessments performed by other teams. These results are regularly presented to the executive risk committee, the audit committee of the board of directors, and Micron's full board of directors for consideration. Climate-related risks and opportunities are identified and prioritized by EHS and Sustainability, considering criteria that include business continuity, impact to brand/reputation, relevance to regional operations, alignment with Micron business strategy, impact to communities, and compliance*

considerations. Micron routinely monitors greenhouse gas and energy efficiency regulations and policy to understand and evaluate impacts to, and opportunities for, our business, customers, and the communities where we operate. In 2019, Micron completed a climate-related risk assessment, which included “business as usual” and 2-degree scenarios for 2020, 2030, and 2040. We conducted an initial updated assessment in 2022, and continue to review potential risks and evolving requirements. The likelihood of evolving requirements occurring and how impactful it would be without updating our compliance programs is evaluated to determine the inherent risk and then program update details, including who, what, and when are determined and tracked to closure. The response for this example includes monitoring greenhouse gas, energy efficiency and reporting regulations and policy to understand and evaluate impacts to, and opportunities for, our business, customers, and the communities where we operate. When applicability is determined, an action plan is developed and monitored through execution. Such an assessment is done annually (at a minimum; for example, reviewing sustainability reporting requirements and updated climate-related disclosure standards), and reviewed for short, medium, and potential long-term impact (for example, new ISSB S1 and S2 reporting standards have a potential short-to-medium-term impact).

**(2.5) Does your organization identify and classify potential water pollutants associated with its activities that could have a detrimental impact on water ecosystems or human health?**

**(2.5.1) Identification and classification of potential water pollutants**

Select from:

Yes, we identify and classify our potential water pollutants

**(2.5.2) How potential water pollutants are identified and classified**

Micron maintains an ongoing improvement program to reduce uses of non-essential hazardous chemicals used in manufacturing and evaluates what can be done to mitigate environmental impacts that may stem from the use of chemicals. Micron’s commitments to enhancing safety and reducing potential impact to human health and environment start with a rigorous review process of chemicals used at our facilities. This review is intended to prevent banned or restricted chemicals from reaching our operations and determines the proper handling, use, recycling or disposal of chemicals, including the identification and control of water pollutants.

**(2.5.1) Describe how your organization minimizes the adverse impacts of potential water pollutants on water ecosystems or human health associated with your activities.**

**(2.5.1.1) Water pollutant category**

Select from:

Other, please specify: Physical and chemical parameters as applicable to our manufacturing process and as driven by local requirements

**(2.5.1.2) Description of water pollutant and potential impacts**

*Physical and chemical parameters as applicable to our manufacturing process and as driven by local requirements*

#### **(2.5.1.3) Value chain stage**

*Select all that apply*

Direct operations

#### **(2.5.1.4) Actions and procedures to minimize adverse impacts**

*Select all that apply*

Discharge treatment using sector-specific processes to ensure compliance with regulatory requirements

#### **(2.5.1.5) Please explain**

*Each manufacturing site is equipped with a specific wastewater treatment facility that has dedicated lines for the removal of pollutants to ensure compliance with regulatory requirements.*

### **C3. Disclosure of risks and opportunities**

**(3.1) Have you identified any environmental risks which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future?**

**Climate change**

#### **(3.1.1) Environmental risks identified**

*Select from:*

Yes, both in direct operations and upstream/downstream value chain

**Water**

#### **(3.1.1) Environmental risks identified**

*Select from:*

Yes, both in direct operations and upstream/downstream value chain

**Plastics**

### (3.1.1) Environmental risks identified

Select from:

No

### (3.1.2) Primary reason why your organization does not consider itself to have environmental risks in your direct operations and/or upstream/downstream value chain

Select from:

Not an immediate strategic priority

**(3.1.1) Provide details of the environmental risks identified which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future.**

#### Climate change

### (3.1.1.1) Risk identifier

Select from:

Risk1

### (3.1.1.3) Risk types and primary environmental risk driver

#### Policy

Carbon pricing mechanisms

### (3.1.1.4) Value chain stage where the risk occurs

Select from:

Direct operations

### (3.1.1.6) Country/area where the risk occurs

Select all that apply

Singapore

### (3.1.1.9) Organization-specific description of risk

*Micron operates in some countries where carbon taxes and greenhouse gas regulations apply or are under discussion, specifically Singapore, where the Carbon Pricing Act tax increases to SGD 25 per tonne CO<sub>2</sub>e on a percentage of facility GHG emissions in 2025 (from SGD 5 per tonne from 2019 to 2023). This would be a cost impact on our operations and may require additional reporting, planning, and/or time from designated personnel.*

### (3.1.1.11) Primary financial effect of the risk

Select from:

- Increased direct costs

### (3.1.1.12) Time horizon over which the risk is anticipated to have a substantive effect on the organization

Select all that apply

- Short-term

### (3.1.1.13) Likelihood of the risk having an effect within the anticipated time horizon

Select from:

- Likely

### (3.1.1.14) Magnitude

Select from:

- Medium-low

### (3.1.1.17) Are you able to quantify the financial effect of the risk?

Select from:

- Yes

### (3.1.1.19) Anticipated financial effect figure in the short-term – minimum (currency)

21700000

### (3.1.1.20) Anticipated financial effect figure in the short-term – maximum (currency)

21700000

### (3.1.1.25) Explanation of financial effect figure

*This is the annual estimated financial cost, calculated by multiplying SGD 25 cost/tCO<sub>2</sub>e established by the Singapore Carbon Pricing Act by the August 2024 USD-SGD exchange rate and by 80% of Micron's 2023 annual MTCO<sub>2</sub>e scope 1 emissions in Singapore.*

### (3.1.1.26) Primary response to risk

#### Compliance, monitoring and targets

- Establish organization-wide targets

### (3.1.1.28) Explanation of cost calculation

*Micron is taking action on our greenhouse gas emissions as a company in a way that is responsive to this risk. However, these actions are taken for a range of reasons not specifically related to this risk, and are not included in the cost of response to this risk.*

### (3.1.1.29) Description of response

*We have established corporate goals and site-level objectives for greenhouse gas reduction, and we are collaborating with suppliers to invent low-emissions etch chemistries, increase gas use efficiency and abate emissions more efficiently at the tool level. These efforts require close partnership with process tool suppliers, gas suppliers and academic researchers to invent novel chemistries and technologies*

## Water

### (3.1.1.1) Risk identifier

Select from:

- Risk1

### (3.1.1.3) Risk types and primary environmental risk driver

#### Chronic physical

- Rationing of municipal water supply

#### (3.1.1.4) Value chain stage where the risk occurs

Select from:

- Direct operations

#### (3.1.1.6) Country/area where the risk occurs

Select all that apply

- China

#### (3.1.1.7) River basin where the risk occurs

Select all that apply

- Huang He (Yellow River)

#### (3.1.1.9) Organization-specific description of risk

*Water is a critical input to our manufacturing process, particularly wafer fabrication, and any reduction in quantity or quality levels would impact our manufacturing process. The Chinese region where Micron's site is located is classified as a high-risk area by the WRI Aqueduct Water Risk tool 3.0. The operation in China is less water-dependent, thus driving a low severity*

#### (3.1.1.11) Primary financial effect of the risk

Select from:

- Disruption in production capacity

#### (3.1.1.12) Time horizon over which the risk is anticipated to have a substantive effect on the organization

Select all that apply

- Long-term

#### (3.1.1.13) Likelihood of the risk having an effect within the anticipated time horizon

Select from:

- More likely than not

#### (3.1.1.14) Magnitude

Select from:

Medium-low

#### (3.1.1.17) Are you able to quantify the financial effect of the risk?

Select from:

No

#### (3.1.1.26) Primary response to risk

##### Infrastructure, technology and spending

Adopt water efficiency, water reuse, recycling and conservation practices

#### (3.1.1.28) Explanation of cost calculation

*Micron recognizes that a reduction in water quantity or quality could impact Micron's operations, resulting in the potential for a variable financial impact.*

#### (3.1.1.29) Description of response

*Not only are clean water sources important to our communities, they are also one of the primary resources used in the manufacture of semiconductors. Micron looks proactively for opportunities to manage water consumption in manufacturing operations globally on an ongoing basis. Water is a key resource for our manufacturing process and Micron looks at water saving opportunities, starting from improving process efficiency to increasing the water recycle rate globally, particularly at Micron locations with stressed water resources.*

#### Climate change

#### (3.1.1.1) Risk identifier

Select from:

Risk2

#### (3.1.1.3) Risk types and primary environmental risk driver

##### Policy

Carbon pricing mechanisms

#### (3.1.1.4) Value chain stage where the risk occurs

Select from:

- Direct operations

#### (3.1.1.6) Country/area where the risk occurs

Select all that apply

- Singapore

#### (3.1.1.9) Organization-specific description of risk

*Micron operates in some countries where carbon taxes and greenhouse gas regulations apply or are under discussion, specifically Singapore, where the Carbon Pricing Act establishes that the carbon tax rate will be increased to SGD 45 per tonne in 2026 and 2027, with a goal to reach SGD 50-80 per tonne by 2030. This is likely to have a cost impact on our operations and may require additional reporting, planning, and/or time from designated personnel.*

#### (3.1.1.11) Primary financial effect of the risk

Select from:

- Increased direct costs

#### (3.1.1.12) Time horizon over which the risk is anticipated to have a substantive effect on the organization

Select all that apply

- Long-term

#### (3.1.1.13) Likelihood of the risk having an effect within the anticipated time horizon

Select from:

- Very likely

#### (3.1.1.14) Magnitude

Select from:

- Medium

**(3.1.1.17) Are you able to quantify the financial effect of the risk?**

Select from:

Yes

**(3.1.1.23) Anticipated financial effect figure in the long-term – minimum (currency)**

43400000

**(3.1.1.24) Anticipated financial effect figure in the long-term – maximum (currency)**

69500000

**(3.1.1.25) Explanation of financial effect figure**

*This is the annual estimated financial cost, calculated by multiplying SGD 50-80 cost/tCO<sub>2</sub>e established by the Singapore Carbon Pricing Act by the August 2024 USD-SGD exchange rate and by 80% of Micron's 2023 annual MTCO<sub>2</sub>e scope 1 emissions in Singapore.*

**(3.1.1.26) Primary response to risk**

Establish organization-wide targets

**(3.1.1.28) Explanation of cost calculation**

*Micron is taking action on our greenhouse gas emissions as a company in a way that is responsive to this risk. However, these actions are taken for a range of reasons not specifically related to this risk, and are not included in the cost of response to this risk.*

**(3.1.1.29) Description of response**

*We have established corporate goals and site-level objectives for greenhouse gas reduction, and we are collaborating with suppliers to invent low-emissions etch chemistries, increase gas use efficiency and abate emissions more efficiently at the tool level. These efforts require close partnership with process tool suppliers, gas suppliers and academic researchers to invent novel chemistries and technologies.*

**Climate change**

**(3.1.1.1) Risk identifier**

Select from:

- Risk3

### (3.1.1.3) Risk types and primary environmental risk driver

**Acute physical**

- Drought

### (3.1.1.4) Value chain stage where the risk occurs

Select from:

- Direct operations

### (3.1.1.6) Country/area where the risk occurs

Select all that apply

- China
- Singapore
- Taiwan, China
- United States of America

### (3.1.1.9) Organization-specific description of risk

*Micron has manufacturing and other operations in locations subject to natural occurrences and possible climate changes, such as drought or other severe and variable weather resulting in increased costs, or disruptions to our manufacturing operations or those of our suppliers or customers. In addition, climate change may pose physical risks to our manufacturing facilities or our suppliers' facilities, including increased extreme weather events that could result in supply delays or disruptions. If production is disrupted for any reason, manufacturing yields may be adversely affected, or we may be unable to meet our customers' requirements and they may purchase products from other suppliers. This could result in a significant increase in manufacturing costs, loss of revenue, or damage to customer relationships, any of which could have a material adverse effect on our business, results of operations, or financial condition.*

### (3.1.1.11) Primary financial effect of the risk

Select from:

- Decreased revenues due to reduced production capacity

### (3.1.1.12) Time horizon over which the risk is anticipated to have a substantive effect on the organization

Select all that apply

- Medium-term
- Long-term

#### (3.1.1.13) Likelihood of the risk having an effect within the anticipated time horizon

Select from:

- Likely

#### (3.1.1.14) Magnitude

Select from:

- Medium-high

#### (3.1.1.17) Are you able to quantify the financial effect of the risk?

Select from:

- No

#### (3.1.1.28) Explanation of cost calculation

*There is potential for financial impact, the assessment of which is subject to a number of dynamic variables. Micron routinely monitors conditions and potential impacts to, and opportunities for, our business, customers, and the communities where we operate. Management activities are embedded into business-as-usual activities within the business and are therefore not additional.*

#### (3.1.1.29) Description of response

*Micron engages in local water restoration to mitigate its water risks. As an example, in Taiwan we have for many years been a steward of the Nankan and Dongmen rivers in Taoyuan, Taiwan, where in 2022 we donated 5 million USD for ammonia nitrogen removal and water quality improvement in the two rivers. We also donated nearly 10 million USD to help fund a dredging project that will restore storage capacity to the Shihmen Reservoir, the region's primary water source. In Singapore, Micron has been incorporating water-saving measures at the design stage at our new buildings and industrial processes. At the same time, we are investing resources to improve the water use efficiency at our existing factories. In Singapore, we derive 96% of our water from rain capture, onsite recycling and Singapore's NEWater supply. NEWater is a product of Singapore's centralized treatment of used water that is repurposed for non-potable use, which helps reduce the demand on reservoirs that provide potable water.*

## Climate change

### (3.1.1.1) Risk identifier

Select from:

- Risk4

### (3.1.1.3) Risk types and primary environmental risk driver

#### Market

- Changing customer behavior

### (3.1.1.4) Value chain stage where the risk occurs

Select from:

- Downstream value chain

### (3.1.1.9) Organization-specific description of risk

*As awareness of sustainability and climate change increases, the design of new products with higher performance and reduced environmental impact (such as increased energy efficiency in memory and storage products) could be important to maintaining and increasing our role in customers' portfolio.*

### (3.1.1.11) Primary financial effect of the risk

Select from:

- Decreased revenues due to reduced demand for products and services

### (3.1.1.12) Time horizon over which the risk is anticipated to have a substantive effect on the organization

**(3.3) In the reporting year, was your organization subject to any fines, enforcement orders, and/or other penalties for water-related regulatory violations?**

Water-related regulatory violations	Comment
Select from: <input checked="" type="checkbox"/> No	No significant environmental fines

**(3.5) Are any of your operations or activities regulated by a carbon pricing system (i.e. ETS, Cap & Trade or Carbon Tax)?**

Select from:

Yes

**(3.5.1) Select the carbon pricing regulation(s) which impact your operations.**

Select all that apply

Singapore carbon tax

**(3.5.3) Complete the following table for each of the tax systems you are regulated by.**

**Singapore carbon tax**

**(3.5.3.1) Period start date**

01/01/2023

**(3.5.3.2) Period end date**

12/31/2023

**(3.5.3.3) % of total Scope 1 emissions covered by tax**

86

**(3.5.3.4) Total cost of tax paid**

5455000

**(3.5.3.5) Comment**

*Scope 1 emissions sources within the Singapore carbon tax scope and accounting/calculation methodology differ from Micron GHG inventory.*

**(3.5.4) What is your strategy for complying with the systems you are regulated by or anticipate being regulated by?**

*Affected Micron sites started an assessment since the proposed rule was issued and evaluated cost impact and possible reduction solutions. There is a dedicated multi-disciplinary team working on identifying opportunities to reduce emissions (and thus GHG emissions taxes) and establish the execution plan by prioritizing actions that have the most significant impact. Micron has been working on optimizing the use of process gases and installation of additional dedicated abatement units in our manufacturing sites in Singapore. This effort will help with reducing process emissions covered by the carbon tax.*

**(3.6) Have you identified any environmental opportunities which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future?**

	Environmental opportunities identified
Climate change	<i>Select from:</i> <input checked="" type="checkbox"/> Yes, we have identified opportunities, and some/all are being realized
Water	<i>Select from:</i> <input checked="" type="checkbox"/> Yes, we have identified opportunities, and some/all are being realized

**(3.6.1) Provide details of the environmental opportunities identified which have had a substantive effect on your organization in the reporting year, or are anticipated to have a substantive effect on your organization in the future.**

### (3.6.1.8) Organization specific description

*Over the past few years, Micron has implemented several projects to improve water use efficiency of the manufacturing process and of the facilities supporting systems (UPW plant, cooling tower, etc.). For new construction, Micron has been incorporating water-saving measures in the design stage for new buildings and industrial processes, at the same time Micron has made significant investments to improve the water use efficiency at the existing factories. By improving water efficiency we also reduce operational costs, particularly in countries where water price is increasing.*

### (3.6.1.9) Primary financial effect of the opportunity

Select from:

- Reduced indirect (operating) costs

### (3.6.1.10) Time horizon over which the opportunity is anticipated to have a substantive effect on the organization

Select all that apply

- Medium-term
- Long-term

### (3.6.1.11) Likelihood of the opportunity having an effect within the anticipated time horizon

Select from:

- Likely (66–100%)

### (3.6.1.12) Magnitude

Select from:

- Medium

### (3.6.1.15) Are you able to quantify the financial effects of the opportunity?

Select from:

- No

### (3.6.1.26) Strategy to realize opportunity

*Micron has developed a strategy for achieving its 2030 water target that includes improvements in facility water efficiency and reuse, and partnership with our local communities to support water restoration.*

#### Climate change

### (3.6.1.1) Opportunity identifier

Select from:

Opp2

### (3.6.1.3) Opportunity type and primary environmental opportunity driver

#### Products and services

Development of new products or services through R&D and innovation

### (3.6.1.4) Value chain stage where the opportunity occurs

Select from:

Downstream value chain

### (3.6.1.8) Organization specific description

*A significant portion of Micron's revenue comes from low-carbon (energy efficient) products, such as our low-power LPDDR5 DRAM memory product. Climate change regulations and customer interest in these products should maintain or increase the demand for these products and potentially drive innovation in the design of new products.*

### (3.6.1.9) Primary financial effect of the opportunity

Select from:

Increased revenues resulting from increased demand for products and services

### (3.6.1.10) Time horizon over which the opportunity is anticipated to have a substantive effect on the organization

Select all that apply

Short-term

- Medium-term

#### (3.6.1.15) Are you able to quantify the financial effects of the opportunity?

Select from:

- No

**(3.6.1.26) Strategy to realize opportunity**

*Micron routinely monitors market trends in terms of power consumption as well as other conditions and potential impacts to understand and evaluate impacts to, and opportunities for, our business, our customers, and the communities where we operate. These and other management activities are embedded into business-as-usual activities and are not considered an additional cost specific to this opportunity.*

**C4. Governance**

**(4.1) Does your organization have a board of directors or an equivalent governing body?**

**(4.1.1) Board of directors or equivalent governing body**

Select from:

Yes

**(4.1.2) Frequency with which the board or equivalent meets**

Select from:

Quarterly

**(4.1.3) Types of directors your board or equivalent is comprised of**

Select all that apply

Independent non-executive directors or equivalent

**(4.1.4) Board diversity and inclusion policy**

Select from:

No

**(4.1.1) Is there board-level oversight of environmental issues within your organization?**

	Board-level oversight of this environmental issue
Climate change	Select from: <input checked="" type="checkbox"/> Yes

	<b>Board-level oversight of this environmental issue</b>
Water	Select from: <input checked="" type="checkbox"/> Yes

**(4.1.2) Identify the positions (do not include any names) of the individuals or committees on the board with accountability for environmental issues and provide details of the board’s oversight of environmental issues.**

**Climate change**

**(4.1.2.1) Positions of individuals or committees with accountability for this environmental issue**

*Select all that apply*

- Chief Executive Officer (CEO)
- Board-level committee

**(4.1.2.2) Positions’ accountability for this environmental issue is outlined in policies applicable to the board**

*Select from:*

- Yes

**(4.1.2.3) Policies which outline the positions’ accountability for this environmental issue**

*Select all that apply*

- Board Terms of Reference

**(4.1.2.4) Frequency with which this environmental issue is a scheduled agenda item**

*Select from:*

- Scheduled agenda item in some board meetings – at least annually

**(4.1.2.5) Governance mechanisms into which this environmental issue is integrated**

*Select all that apply*

- Overseeing the setting of corporate targets
- Monitoring compliance with corporate policies and/or commitments

- Monitoring progress towards corporate targets
- Approving and/or overseeing employee incentives
- Monitoring the implementation of the business strategy
- Overseeing reporting, audit, and verification processes

#### **(4.1.2.7) Please explain**

*The Governance and Sustainability Committee of Micron's Board of Directors oversees the company's development and integration of sustainability strategy and regularly reviews sustainability performance, including climate change, supported by other Board committees as needed. Micron's sustainability and climate-related strategy, action plans, performance objectives, and progress against goals and targets are presented to the Governance and Sustainability committee at least annually. The Audit Committee of the Board of Directors regularly reviews reporting processes, as well as metrics and financial reporting aspects of sustainability reporting. Risk management policies and significant risk findings are also reported to the Board's Audit Committee. The Compensation Committee established operational metrics for evaluating performance during the fiscal year, which includes performance on ESG issues including greenhouse gas emissions.*

### **Water**

#### **(4.1.2.1) Positions of individuals or committees with accountability for this environmental issue**

*Select all that apply*

- Chief Executive Officer (CEO)
- Board-level committee

Select all that apply

- Overseeing the setting of corporate targets
- Monitoring progress towards corporate targets
- Approving and/or overseeing employee incentives
- Monitoring the implementation of the business strategy
- Overseeing reporting, audit, and verification processes
- Monitoring compliance with corporate policies and/or commitments

**(4.1.2.7) Please explain**

*The Governance and Sustainability Committee of Micron’s Board of Directors oversees the company’s development and integration of sustainability strategy and regularly reviews sustainability performance, including water, supported by other Board committees as needed. The Audit Committee of the Board of Directors regularly reviews reporting processes, as well as metrics and financial reporting aspects of sustainability reporting.*

**(4.3) Is there management-level responsibility for environmental issues within your organization?**

	Management-level responsibility for this environmental issue
Climate change	Select from: <input checked="" type="checkbox"/> Yes
Water	Select from: <input checked="" type="checkbox"/> Yes

**(4.3.1) Provide the highest senior management-level positions or committees with responsibility for environmental issues (do not include the names of individuals).**

Climate change

**(4.3.1.1) Position of individual or committee with responsibility**

### Executive level

- Other C-Suite Officer, please specify: Executive Vice President, Global Operations

#### (4.3.1.2) Environmental responsibilities of this position

##### Policies, commitments, and targets

- Setting corporate environmental policies and/or commitments
- Setting corporate environmental targets

##### Strategy and financial planning

- Developing a business strategy which considers environmental issues
- Implementing the business strategy related to environmental issues

#### (4.3.1.4) Reporting line

Select from:

- Reports to the Chief Executive Officer (CEO)

#### (4.3.1.5) Frequency of reporting to the board on environmental issues

Select from:

- Annually

#### (4.3.1.6) Please explain

*Micron's Executive Vice President, Global Operations maintains oversight, review, and approval of the company's operational strategy related to climate change, including setting and monitoring progress against climate-related targets in corporate operations. With company subject matter experts, the Executive Vice President leads review of strategy, targets and progress with the company board of directors at least annually.*

### Water

#### (4.3.1.1) Position of individual or committee with responsibility

##### Executive level

- Other C-Suite Officer, please specify: Executive Vice President, Global Operations

#### (4.3.1.2) Environmental responsibilities of this position

##### **Policies, commitments, and targets**

- Setting corporate environmental policies and/or commitments
- Setting corporate environmental targets

##### **Strategy and financial planning**

- Developing a business strategy which considers environmental issues
- Implementing the business strategy related to environmental issues

#### (4.3.1.4) Reporting line

Select from:

- Reports to the Chief Executive Officer (CEO)

#### (4.3.1.5) Frequency of reporting to the board on environmental issues

Select from:

- Annually

#### (4.3.1.6) Please explain

*Micron's Executive Vice President, Global Operations maintains oversight, review, and approval of the company's operational strategy related to water, including setting and monitoring progress against water-related targets in corporate operations. With company subject matter experts, the Executive Vice President leads review of strategy, targets and progress with the company board of directors at least annually.*

#### **(4.5) Do you provide monetary incentives for the management of environmental issues, including the attainment of targets?**

##### **Climate change**

#### (4.5.1) Provision of monetary incentives related to this environmental issue

Select from:

- Yes

**(4.5.2) % of total C-suite and board-level monetary incentives linked to the management of this environmental issue**

5

**(4.5.3) Please explain**

*Steps taken to reduce direct and indirect GHG emissions in line with Micron goals comprise 5% of short-term incentive pay for Micron executives and all other employees.*

**Water**

**(4.5.3) Please explain**

*Steps to achieve Micron's water targets have in the past been a portion of short-term incentive pay. While they were not in 2023, they may be included again in the future.*

**(4.5.1) Provide further details on the monetary incentives provided for the management of environmental issues (do not include the names of individuals).**

**Climate change**

**(4.5.1.1) Position entitled to monetary incentive**

**Board or executive level**

Corporate executive team

**(4.5.1.2) Incentives**

*Select all that apply*

Bonus - % of salary

**(4.5.1.3) Performance metrics**

**Emission reduction**

Implementation of an emissions reduction initiative

## Engagement

- Increased engagement with suppliers on environmental issues

### (4.5.1.4) Incentive plan the incentives are linked to

Select from:

- Short-Term Incentive Plan, or equivalent, only (e.g. contractual annual bonus)

### (4.5.1.5) Further details of incentives

*Annual incentive plan*

### (4.5.1.6) How the position's incentives contribute to the achievement of your environmental commitments and/or climate transition plan

*Our compensation philosophy for executive officers is based on the belief that the interests of our executives should be closely aligned with our long-term performance and sustainable value creation for our shareholders. To support this philosophy, a large portion of each executive officer's target total direct compensation is "at risk" and linked to the accomplishment of specific financial and operational performance goals that we expect will lead to increased long-term value creation for our shareholders. The Compensation Committee chose these metrics and their linkage to our business and results of operations because they believe a focus on sustainability benefits our team members, communities, and other stakeholders.*

## (4.6) Does your organization have an environmental policy that addresses environmental issues?

Does your organization have any environmental policies?

Select from:

- Yes

## (4.6.1) Provide details of your environmental policies.

Row 1

### (4.6.1.1) Environmental issues covered

Select all that apply

- Climate change

#### (4.6.1.2) Level of coverage

Select from:

- Organization-wide

#### (4.6.1.3) Value chain stages covered

Select all that apply

- Direct operations
- Upstream value chain
- Downstream value chain

#### (4.6.1.5) Environmental policy content

##### Environmental commitments

- Commitment to comply with regulations and mandatory standards
- Commitment to take environmental action beyond regulatory compliance

#### (4.6.1.7) Public availability

Select from:

- Publicly available

#### (4.6.1.8) Attach the policy

[EHS Policy.pdf](#)

#### (4.10) Are you a signatory or member of any environmental collaborative frameworks or initiatives?

##### (4.10.1) Are you a signatory or member of any environmental collaborative frameworks or initiatives?

Select from:

- Yes

#### **(4.10.2) Collaborative framework or initiative**

*Select all that apply*

- Japan Climate Leaders' Partnership (JCLP)
- Other, please specify

#### **(4.10.3) Describe your organization's role within each framework or initiative**

*Participant in JCLP. Member of SEMI's Semiconductor Climate Coalition*

**(4.11) In the reporting year, did your organization engage in activities that could directly or indirectly influence policy, law, or regulation that may (positively or negatively) impact the environment?**

#### **(4.11.1) External engagement activities that could directly or indirectly influence policy, law, or regulation that may impact the environment**

*Select all that apply*

- Yes, we engaged directly with policy makers
- Yes, we engaged indirectly through, and/or provided financial or in-kind support to a trade association or other intermediary organization or individual whose activities could influence policy, law, or regulation

#### **(4.11.2) Indicate whether your organization has a public commitment or position statement to conduct your engagement activities in line with global environmental treaties or policy goals**

*Select from:*

- No, and we do not plan to have one in the next two years

#### **(4.11.5) Indicate whether your organization is registered on a transparency register**

*Select from:*

- No

#### **(4.11.8) Describe the process your organization has in place to ensure that your external engagement activities are consistent with your environmental commitments and/or transition plan**

*We review policy and industry association stances internally with relevant sustainability and executive leadership as needed, taking into account consistency with our climate commitments.*

**(4.12) Have you published information about your organization’s response to environmental issues for this reporting year in places other than your CDP response?**

*Select from:*

Yes

**(4.12.1) Provide details on the information published about your organization’s response to environmental issues for this reporting year in places other than your CDP response. Please attach the publication.**

**Row 1**

**(4.12.1.1) Publication**

*Select from:*

In mainstream reports

## C5. Business strategy

(5.1) Does your organization use scenario analysis to identify environmental outcomes?

Climate change

### (5.1.1) Use of scenario analysis

Select from:

Yes

### (5.1.2) Frequency of analysis

Select from:

Not defined

(5.1.1) Provide details of the scenarios used in your organization's scenario analysis.

Climate change

#### (5.1.1.1) Scenario used

Physical climate scenarios

RCP 4.5

#### (5.1.1.2) Scenario used SSPs used in conjunction with scenario

Select from:

No SSP used

#### (5.1.1.3) Approach to scenario

Select from:

Qualitative

#### (5.1.1.4) Scenario coverage

Select from:

- Organization-wide

#### (5.1.1.5) Risk types considered in scenario

Select all that apply

- Policy
- Market
- Liability
- Reputation
- Technology
- Acute physical
- Chronic physical

#### (5.1.1.6) Temperature alignment of scenario

Select from:

- 1.6°C - 1.9°C

#### (5.1.1.7) Reference year

2020

#### (5.1.1.8) Timeframes covered

Select all that apply

- 2030
- 2040
- 2050

#### (5.1.1.9) Driving forces in scenario

**Direct interaction with climate**

- On asset values, on the corporate

**(5.10) Does your organization use an internal price on environmental externalities?**

Use of internal pricing of environmental externalities	Primary reason for not pricing environmental externalities	Explain why your organization does not price environmental externalities
<i>Select from:</i> <input checked="" type="checkbox"/> No, and we do not plan to in the next two years	<i>Select from:</i> <input checked="" type="checkbox"/> Not an immediate strategic priority	<i>not an immediate strategic priority</i>

**(5.11) Do you engage with your value chain on environmental issues?**

	Engaging with this stakeholder on environmental issues	Environmental issues covered
Suppliers	<i>Select from:</i> <input checked="" type="checkbox"/> Yes	<i>Select all that apply</i> <input checked="" type="checkbox"/> Climate change
Customers	<i>Select from:</i> <input checked="" type="checkbox"/> Yes	<i>Select all that apply</i> <input checked="" type="checkbox"/> Climate change <input checked="" type="checkbox"/> Water
Investors and shareholders	<i>Select from:</i> <input checked="" type="checkbox"/> Yes	<i>Select all that apply</i> <input checked="" type="checkbox"/> Climate change <input checked="" type="checkbox"/> Water
Other value chain stakeholders	<i>Select from:</i> <input checked="" type="checkbox"/> Yes	<i>Select all that apply</i> <input checked="" type="checkbox"/> Climate change <input checked="" type="checkbox"/> Water

**(5.11.1) Does your organization assess and classify suppliers according to their dependencies and/or impacts on the environment?**

**Climate change**

**(5.11.1.1) Assessment of supplier dependencies and/or impacts on the environment**

*Select from:*

Yes, we assess the dependencies and/or impacts of our suppliers

**(5.11.1.2) Criteria for assessing supplier dependencies and/or impacts on the environment**

*Select all that apply*

- Contribution to supplier-related Scope 3 emissions

**(5.11.1.3) % Tier 1 suppliers assessed**

*Select from:*

- 51-75%

**(5.11.1.4) Define a threshold for classifying suppliers as having substantive dependencies and/or impacts on the environment**

*Suppliers within 70% of annual spend*

**(5.11.2) Does your organization prioritize which suppliers to engage with on environmental issues?**

**Climate change**

**(5.11.2.1) Supplier engagement prioritization on this environmental issue**

*Select from:*

- Yes, we prioritize which suppliers to engage with on this environmental issue

**(5.11.2.2) Criteria informing which suppliers are prioritized for engagement on this environmental issue**

*Select all that apply*

- Procurement spend
- Strategic status of suppliers

**(5.11.2.4) Please explain**

*We define suppliers as strategic based upon annual spend and business impact*

**(5.11.5) Do your suppliers have to meet environmental requirements as part of your organization's purchasing process?**

**Climate change**

**(5.11.5.1) Suppliers have to meet specific environmental requirements related to this environmental issue as part of the purchasing process**

Select from:

- Yes, environmental requirements related to this environmental issue are included in our supplier contracts

**(5.11.5.2) Policy in place for addressing supplier non-compliance**

Select from:

- Yes, we have a policy in place for addressing non-compliance

**(5.11.5.3) Comment**

*Micron's supplier requirements standard states that upon request from Micron, suppliers shall be required to provide environmental disclosures via the Carbon Disclosure Project (CDP) or other data platforms, and shall be required to provide life cycle assessment and/or carbon footprint information regarding the products or services they supply. It also states that suppliers providing goods or services to Micron shall satisfy applicable current legal and other industry requirements regarding human health, safety, ethics, and environmental protection. (supplier requirements standard is available here: <https://www.micron.com/content/dam/micron/global/public/documents/about/sustainability/supplier-requirements-standard.pdf>)*

**(5.11.6) Provide details of the environmental requirements that suppliers have to meet as part of your organization's purchasing process, and the compliance measures in place.**

**Climate change**

**(5.11.6.1) Environmental requirement**

Select from:

- Environmental disclosure through a public platform

**(5.11.6.2) Mechanisms for monitoring compliance with this environmental requirement**

Select all that apply

- Supplier scorecard or rating

**(5.11.7) Provide further details of your organization's supplier engagement on environmental issues.**

**Climate change**

#### (5.11.7.2) Action driven by supplier engagement

Select from:

- Emissions reduction

#### (5.11.7.3) Type and details of engagement

##### Information collection

- Collect GHG emissions data at least annually from suppliers
- Collect targets information at least annually from suppliers

##### Innovation and collaboration

- Collaborate with suppliers on innovations to reduce environmental impacts in products and services
- Run a campaign to encourage innovation to reduce environmental impacts on products and services

#### (5.11.7.4) Upstream value chain coverage

Select all that apply

- Tier 1 suppliers

#### (5.11.7.9) Describe the engagement and explain the effect of your engagement on the selected environmental action

*Micron communicates our sustainability commitments to our suppliers and follows their progress in reducing water and energy use. As we ramp up our work toward reducing the environmental footprint of our own operations, we use the RBA audit process to survey suppliers' programs for improvements in energy efficiency, reduced greenhouse gas (GHG) emissions, and reductions in the generation of solid waste, wastewater and other air emissions. Beyond encouraging suppliers to disclose and address their direct carbon footprints, we are partnering with them to drive environmental improvements at Micron sites. We work closely with a group of capital equipment suppliers to find ways to advance Micron's energy, emissions, water and waste goals at our manufacturing sites. We are also collaborating with suppliers to help us address our scope 3 supply chain emissions by focusing on projects that generate reductions in their own scope 1 and 2 footprints. We require key suppliers to report details on their GHG emissions and water footprint by sending Micron their CDP submissions or providing GHG data directly.*

**(5.11.9) Provide details of any environmental engagement activity with other stakeholders in the value chain.**

	Type of stakeholder	Type and details of engagement	Rationale for engaging these stakeholders and scope of engagement
Climate change	<i>Select from:</i> <input checked="" type="checkbox"/> Customers	<b>Education/Information sharing</b> <input checked="" type="checkbox"/> Share information on environmental initiatives, progress and achievements	<i>Focus on engaging with key customers with significant climate expectations</i>
Climate change	<i>Select from:</i> <input checked="" type="checkbox"/> Investors and shareholders	<b>Education/Information sharing</b> <input checked="" type="checkbox"/> Share information about your products and relevant certification schemes	<i>Focus on engaging with investors to share information about climate initiatives</i>

**(5.13) Has your organization already implemented any mutually beneficial environmental initiatives due to CDP Supply Chain member engagement?**

Environmental initiatives implemented due to CDP	Primary reason for not implementing environmental initiatives	Explain why your organization has not implemented any environmental initiatives
<i>Select from:</i> <input checked="" type="checkbox"/> No, and we do not plan to within the next two years	<i>Select from:</i> <input checked="" type="checkbox"/> Other, please specify :We have implemented environmental initiatives, but not due to CDP supply chain member engagement.	<i>We have implemented environmental initiatives, but not due to CDP supply chain member engagement.</i>

## C6. Environmental Performance - Consolidation Approach

(6.1) Provide details on your chosen consolidation approach for the calculation of environmental performance data.

	Consolidation approach used	Provide the rationale for the choice of consolidation approach
Climate change	Select from: <input checked="" type="checkbox"/> Operational control	Reporting boundary aligned to financial report boundary
Water	Select from: <input checked="" type="checkbox"/> Operational control	Reporting boundary aligned to financial report boundary
Plastics	Select from: <input checked="" type="checkbox"/> Operational control	Reporting boundary aligned to financial report boundary
Biodiversity	Select from: <input checked="" type="checkbox"/> Operational control	Reporting boundary aligned to financial report boundary

## C7. Environmental performance - Climate Change

(7.1) Is this your first year of reporting emissions data to CDP?

Select from:

No

(7.1.1) Has your organization undergone any structural changes in the reporting year, or are any previous structural changes being accounted for in this disclosure of emissions data?

Has there been a structural change?

Select all that apply

No

**(7.1.2) Has your emissions accounting methodology, boundary, and/or reporting year definition changed in the reporting year?**

**(7.1.2.1) Change(s) in methodology, boundary, and/or reporting year definition?**

Select all that apply

- Yes, a change in methodology

**(7.1.2.2) Details of methodology, boundary, and/or reporting year definition change(s)**

*Change from IPCC2006 to 2019 refinement of IPCC2006 Chapter 6 for process emissions calculation. Change from GWP 4th Assessment to GWP 5th Assessment values*

**(7.1.3) Have your organization's base year emissions and past years' emissions been recalculated as a result of any changes or errors reported in 7.1.1 and/or 7.1.2?**

**(7.1.3.1) Base year recalculation**

Select from:

- Yes

**(7.1.3.2) Scope(s) recalculated**

Select all that apply

- Scope 1  
 Scope 2, market-based

**(7.1.3.3) Base year emissions recalculation policy, including significance threshold**

*Baseline year 2020 Scope 1 was recalculated to reflect IPCC2019 methodology and GWP 5th assessment values. Scope 2 and Scope 3 emissions not impacted by the changes. Baseline 2020 Scope 1 and Scope 2 market based has also been recalculated to consider the separation of a site in 2022.*

**(7.1.3.4) Past years' recalculation**

Select from:

- No

**(7.2) Select the name of the standard, protocol, or methodology you have used to collect activity data and calculate emissions.**

Select all that apply

- IPCC Guidelines for National Greenhouse Gas Inventories, 2006
- The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard (Revised Edition)

**(7.3) Describe your organization's approach to reporting Scope 2 emissions.**

**(7.3.1) Scope 2, location-based**

Select from:

- We are reporting a Scope 2, location-based figure

**(7.3.2) Scope 2, market-based**

Select from:

- We are reporting a Scope 2, market-based figure

**(7.3.3) Comment**

*We are reporting both location-based and market based figures. Location-based calculated by using the most recent factors published by relevant agencies for each location/country. Market-based calculated using Supplier specific emission rates where applicable/available. Whenever the market-based factor is not available we considered the location-based EF for the calculation of equivalent CO2 emissions.*

**(7.4) Are there any sources (e.g. facilities, specific GHGs, activities, geographies, etc.) of Scope 1, Scope 2 or Scope 3 emissions that are within your selected reporting boundary which are not included in your disclosure?**

Select from:

- Yes

**(7.4.1) Provide details of the sources of Scope 1, Scope 2, or Scope 3 emissions that are within your selected reporting boundary which are not included in your disclosure.**

Row 1

**(7.4.1.1) Source of excluded emissions**

*Energy consumption from non-manufacturing sites (sales offices and design centers, in multiple countries)*

**(7.4.1.2) Scope(s) or Scope 3 category(ies)**

*Select all that apply*

- Scope 1
- Scope 2 (location-based)
- Scope 2 (market-based)

**(7.4.1.3) Relevance of Scope 1 emissions from this source**

*Select from:*

- Emissions are not relevant

**(7.4.1.4) Relevance of location-based Scope 2 emissions from this source**

*Select from:*

- Emissions are not relevant

**(7.4.1.5) Relevance of market-based Scope 2 emissions from this source**

*Select from:*

- Emissions are not relevant

**(7.4.1.8) Estimated percentage of total Scope 1+2 emissions this excluded source represents**

1

**(7.4.1.10) Explain why this source is excluded**

*Sales and design offices in America, Asia and Europe have multiple locations even within the same country. The most significant GHG source would be Scope 2 from purchased electricity consumption that is less than 1% of total Scope 2 emissions*

**(7.4.1.11) Explain how you estimated the percentage of emissions this excluded source represents**

*The above estimated percentage is calculated by using Scope 1 and 2 from non-manufacturing sites compared to manufacturing locations included in the reporting. Data collected for non-manufacturing sites include electricity consumption, fuel consumption and refrigerants where Micron has operational control.*

**(7.5) Provide your base year and base year emissions.**

**Scope 1**

**(7.5.1) Base year end**

12/31/2020

**(7.5.2) Base year emissions (metric tons CO2e)**

3047919

**(7.5.3) Methodological details**

*2020 set as baseline year for the absolute emissions reduction targets. 2020 Scope 1 emissions have been recalculated by using 2019 IPCC refinement for process gas emissions and by using GWP values from the 5th Assessment (it was GWP 4th Assessment)*

**Scope 2 (location-based)**

**(7.5.1) Base year end**

12/31/2020

**(7.5.2) Base year emissions (metric tons CO2e)**

2985206

**(7.5.3) Methodological details**

*2020 set as baseline year for the absolute emissions reduction targets. Location-based is not considered*

**Scope 2 (market-based)**

**(7.5.1) Base year end**

12/31/2020

**(7.5.2) Base year emissions (metric tons CO2e)**

3621519

#### **(7.5.3) Methodological details**

*2020 set as baseline year for the absolute emissions reduction targets.*

#### **(7.6) What were your organization's gross global Scope 1 emissions in metric tons CO<sub>2</sub>e?**

**Reporting year**

#### **(7.6.1) Gross global Scope 1 emissions (metric tons CO<sub>2</sub>e)**

2698572

#### **(7.6.3) Methodological details**

*Micron Scope 1 emissions are related to process GHG gases (PFC, HFC, SF<sub>6</sub>, NF<sub>3</sub>, N<sub>2</sub>O), Heat Transfer Fluids, stationary fuel combustion, mobile fuel combustion (owned vehicles) and refrigerants.*

#### **(7.7) What were your organization's gross global Scope 2 emissions in metric tons CO<sub>2</sub>e?**

**Reporting year**

#### **(7.7.1) Gross global Scope 2, location-based emissions (metric tons CO<sub>2</sub>e)**

3936763

#### **(7.7.2) Gross global Scope 2, market-based emissions (metric tons CO<sub>2</sub>e) (if applicable)**

4138062

#### **(7.7.4) Methodological details**

*Micron Scope 2 emissions include: purchased electricity, purchased steam, purchased cooling. Location-based calculated by using the most recent factors published by relevant agencies for each location/country. Market-based calculated using Supplier specific emission rates where applicable/available. Whenever the market-based factor is not available we considered the location-based EF for the calculation of equivalent CO<sub>2</sub> emissions.*

#### **(7.8) Account for your organization's gross global Scope 3 emissions, disclosing and explaining any exclusions.**

## Purchased goods and services

### (7.8.1) Evaluation status

Select from:

Relevant, calculated

### (7.8.2) Emissions in reporting year (metric tons CO2e)

1923761

### (7.8.3) Emissions calculation methodology

Select all that apply

Hybrid method

### (7.8.4) Percentage of emissions calculated using data obtained from suppliers or value chain partners

79

### (7.8.5) Please explain

*Scope 3 emissions are calculated by using the annual spend CY23/supplier and emission intensity factor (tCO2e/mUSD) reported by the suppliers through CDP Supply Chain 2023. Where supplier specific data was not reported, emissions are calculated by using the relevant industry sector intensity average consolidated by CDP Supply Chain. The selected Purchased goods/services and Capital goods suppliers contribute to about 70% of total spend 2023. Percentage of data obtained from suppliers is calculated by considering emissions calculated from intensity emission factors reported by suppliers through CDP Supply Chain compared to total emissions. Contribution of service suppliers impacting Scope 2 (such as electricity providers) and suppliers contributing to other Scope 3 categories (such as business travel and transportation/distribution) are not counted under this category to prevent double counting.*

## Capital goods

### (7.8.1) Evaluation status

Select from:

Relevant, calculated

### (7.8.2) Emissions in reporting year (metric tons CO2e)

644073

### (7.8.3) Emissions calculation methodology

Select all that apply

Hybrid method

### (7.8.4) Percentage of emissions calculated using data obtained from suppliers or value chain partners

79

### (7.8.5) Please explain

*Scope 3 emissions are calculated by using the annual spend CY23/supplier and emission intensity factor (tCO2e/mUSD) reported by the suppliers through CDP Supply Chain 2023. Where supplier specific data was not reported, emissions are calculated by using the relevant industry sector intensity average consolidated by CDP Supply Chain. The selected Purchased goods/services and Capital goods suppliers contribute to about 70% of total spend 2023. Percentage of data obtained from suppliers is calculated by considering emissions calculated from intensity emission factors reported by suppliers through CDP Supply Chain compared to total emissions.*

### Fuel-and-energy-related activities (not included in Scope 1 or 2)

#### (7.8.1) Evaluation status

Select from:

Relevant, calculated

#### (7.8.2) Emissions in reporting year (metric tons CO2e)

995805

#### (7.8.3) Emissions calculation methodology

Select all that apply

Average data method

#### (7.8.4) Percentage of emissions calculated using data obtained from suppliers or value chain partners

0

#### (7.8.5) Please explain

*This category includes upstream emissions from purchased fuels and electricity, including generation, transmission & distribution (T&D) and any other losses. Emissions due to fuel and energy related activities are calculated by using actual fuel and electricity consumption in CY2023 along with latest UK DEFRA emission factors 2023 for fuel and steam, while for purchased electricity WTT and T&D factors IEA (2023) Life cycle upstream emissions factors*

#### Upstream transportation and distribution

#### (7.8.1) Evaluation status

Select from:

Relevant, calculated

#### (7.8.2) Emissions in reporting year (metric tons CO<sub>2</sub>e)

130551

#### (7.8.3) Emissions calculation methodology

Select all that apply

Hybrid method

#### (7.8.4) Percentage of emissions calculated using data obtained from suppliers or value chain partners

47

#### (7.8.5) Please explain

*Included upstream transportation of: purchased goods, capital goods, transfer of products/materials between Micron sites. Data source: emissions reports from suppliers where available, remaining calculated from Micron report with activity data (by carrier, transportation mode, total kg/distance). Emission factors source: US EPA for ground and ocean transportation mode (updated Feb 2024) and UK DEFRA for Freight Flights (version 2024) Emissions from outbound logistics services (reported as downstream transportation/distribution previously) have been included in this upstream category because outbound services are also paid by Micron (GHG Protocol guideline for Corporate Value Chain, page 44)*

#### Waste generated in operations

Select all that apply

Average data method

**(7.8.4) Percentage of emissions calculated using data obtained from suppliers or value chain partners**

0

**(7.8.5) Please explain**

*Calculated CO2 emissions based on tonnage of CY2023 hazardous and non-hazardous waste sent to incineration (with and without energy recovery), recycle, landfill, composting, chemical treatment. Significant reduction of waste sent to Landfill compared to 2022, driving emissions down. Sources of emission factors: UK DEFRA Waste disposal (2023)*

**Business travel**

**(7.8.1) Evaluation status**

Select from:

Relevant, calculated

**(7.8.3) Emissions calculation methodology**

Select all that apply

Supplier-specific method

**(7.8.4) Percentage of emissions calculated using data obtained from suppliers or value chain partners**

100

**(7.8.5) Please explain**

*Emissions from business travel (including flights, hotel, and car rentals) are calculated using actual data that is tracked and reported by Micron's travel agencies based on actual CY2023 business travels data. GHG emissions are then calculated by using EPA emission factors. 2023 emissions higher as a consequence of more business travels*

**Employee commuting**

**(7.8.1) Evaluation status**

Select from:

Relevant, calculated

## **Downstream transportation and distribution**

### **(7.8.1) Evaluation status**

Select from:

Not relevant, explanation provided

### **(7.8.5) Please explain**

*In completing a Scope 3 screening and inventory, we have determined that emissions from outbound logistics services (reported as downstream transportation/distribution previously) have to be included in the "Upstream transportation and distribution" category because outbound services are paid by Micron (GHG Protocol guideline for Corporate Value Chain, page 44). Total emissions from distribution and transportation upstream and downstream are then reported in "Upstream transportation and distribution".*

## **Processing of sold products**

### **(7.8.1) Evaluation status**

Select from:

Not relevant, explanation provided

### **(7.8.5) Please explain**

*As per WBCSD/WRI Greenhouse Gas Protocol (GHGP), "If the eventual end use of sold intermediate products may be unknown, companies may disclose and justify the exclusion of downstream emissions from categories 9, 10, 11, and 12 in the report. " In completing a scope 3 screening and inventory, we have determined that our sold products should be classified as 'intermediate products' per the GHGP because Micron does not sell any finished/ final products and it is very difficult to estimate the processing, end use and end of life treatment of our products given the range of application types and products which use memory and storage. Thus, we have determined that categories 9, 10,11 and 12 are not relevant for Micron.*

## **Use of sold products**

### **(7.8.1) Evaluation status**

Select from:

Not relevant, explanation provided

### **(7.8.5) Please explain**

*As per WBCSD/WRI Greenhouse Gas Protocol (GHGP), "If the eventual end use of sold intermediate products may be unknown, companies may disclose and justify the exclusion of downstream emissions from categories 9, 10, 11, and 12 in the report. **(7.10) How do your gross global emissions (Scope 1 and 2 combined) for the reporting year compare to those of the previous reporting year?**

Select from:

Decreased

**(7.10.1) Identify the reasons for any change in your gross global emissions (Scope 1 and 2 combined), and for each of them specify how your emissions compare to the previous year.**

## Change in renewable energy consumption

### (7.10.1.1) Change in emissions (metric tons CO2e)

242000

### (7.10.1.2) Direction of change in emissions

Select from:

Decreased

### (7.10.1.3) Emissions value (percentage)

3

### (7.10.1.4) Please explain calculation

*In CY23, Micron expanded onsite PPA in Singapore and started a new one in the US. Micron also added renewable electricity in Malaysia, the US and China. Change in emissions has been calculated by considering the power generated and consumed onsite multiplied by the grid emission factor (market based). The percentage has been calculated as ratio of emissions avoided in CY2023 compared to combined Scope 1 and 2 (market based) in calendar year 2022*

## Other emissions reduction activities

#### (7.53.1.83) Target objective

42% absolute reduction in scope 1 emissions by CY30 from the CY20 baseline.

#### (7.53.1.84) Plan for achieving target, and progress made to the end of the reporting year

Actions included in the plan for achieving the target: reducing direct emissions through efficient abatement of process GHGs and a transition to low global-warming-potential heat transfer fluid. Progress made in 2023: 11.5% decrease in absolute scope 1 emissions compared to Scope 1 in baseline year 2020, as result of progress made in process optimization, abatement enablement, transition to lower-emitting heat transfer fluids and improve use efficiency.

*All manufacturing facilities*

**(7.53.1.83) Target objective**

*Net zero GHG emissions in our operations (scope 1) and purchased energy (scope 2) by 2050.*

**(7.53.1.84) Plan for achieving target, and progress made to the end of the reporting year**

*In addition to the projects and programs to reduce Scope 1 and achieve ABS 1 target, we are driving specific projects and program to drive Scope 2 reduction by expanding the use of renewable energy, based on availability of each location where we operate, and drive energy efficiency improvement in our processes and equipment. In 2023 our total Scope 1 and Scope 2 emissions is 2.5% higher than 2020 baseline year, yet showing 10% decrease compared to 2022, as result of multiple projects implemented in the reporting year. Progress made in 2023: Micron achieved 100% renewable electricity for our operations in mainland China through the purchase of green electricity certificates (GECs). In US, a new offsite PPA officially started in Boise and purchased RECs for our Manassas facility. We expanded our on-site solar capabilities in Singapore and continue to purchase 100% renewable electricity for our facilities in Malaysia through the Green Electricity Tariff program.*

Scope 1

Scope 2

**(7.53.2.9) Scope 2 accounting method**

Select from:

Market-based

**(7.53.2.11) Intensity metric**

Select from:

Metric tons CO2e per unit of production

**(7.53.2.33) Intensity figure in base year for all selected Scopes (metric tons CO2e per unit of activity)**

0.0000000000

**(7.53.2.34) % of total base year emissions in Scope 1 covered by this Scope 1 intensity figure**

100.0

**(7.53.2.35) % of total base year emissions in Scope 2 covered by this Scope 2 intensity figure**

100.0

**(7.53.2.54) % of total base year emissions in all selected Scopes covered by this intensity figure**

100.0

**(7.53.2.80) Intensity figure in reporting year for all selected Scopes (metric tons CO2e per unit of activity)**

0.0000000000

**(7.53.2.81) Land-related emissions covered by target**

Select from:

No, it does not cover any land-related emissions (e.g. non-FLAG SBT)

**(7.53.2.83) Target status in reporting year**

Select from:

- Retired

**(7.53.2.84) Explain the reasons for the revision, replacement, or retirement of the target**

*Retired after establishment of absolute goal*

**(7.54) Did you have any other climate-related targets that were active in the reporting year?**

Select all that apply

- Targets to increase or maintain low-carbon energy consumption or production

**(7.54.1) Provide details of your targets to increase or maintain low-carbon energy consumption or production.**

Row 1

**(7.54.1.1) Target reference number**

Select from:

- Low 1

**(7.54.1.2) Date target was set**

12/31/2019

**(7.54.1.3) Target coverage**

Select from:

- Country/area/region

**(7.54.1.4) Target type: energy carrier**

Select from:

- Electricity

**(7.54.1.5) Target type: activity**

Select from:

Consumption

**(7.54.1.6) Target type: energy source**

Select from:

Renewable energy source(s) only

**(7.54.1.7) End date of base year**

12/30/2020

**(7.54.1.8) Consumption or production of selected energy carrier in base year (MWh)**

0

**(7.54.1.9) % share of low-carbon or renewable energy in base year**

0

**(7.54.1.10) End date of target**

12/30/2025

**(7.54.1.11) % share of low-carbon or renewable energy at end date of target**

100

**(7.54.1.12) % share of low-carbon or renewable energy in reporting year**

10.4

**(7.54.1.13) % of target achieved relative to base year**

10.40

**(7.54.1.14) Target status in reporting year**

Select from:

Underway

**(7.54.1.16) Is this target part of an emissions target?**

Yes, ABS 1 and ABS 2

**(7.54.1.17) Is this target part of an overarching initiative?**

Select all that apply

No, it's not part of an overarching initiative

**(7.54.1.19) Explain target coverage and identify any exclusions**

Manufacturing sites in US

**(7.54.1.20) Target objective**

100% renewable energy for its U.S. operations by the end of 2025

**(7.54.1.21) Plan for achieving target, and progress made to the end of the reporting year**

*Our renewable energy strategy includes a combination of green tariffs, physical and virtual power purchase agreements (PPAs), renewable energy credit (REC) purchase agreement. We have criteria to aid in the use of renewable energy whenever possible, considering the availability of affordable renewable energy based on the unique landscapes in each country where we operate. The 40-megawatt Black Mesa solar project located near our Boise headquarters came online in June 2023 by supplying renewable energy to the Boise campus and we purchased additional unbundled RECs to achieve 10% renewable electricity use for the Boise facility in 2023.*

**(7.55) Did you have emissions reduction initiatives that were active within the reporting year? Note that this can include those in the planning and/or implementation phases.**

Select from:

Yes

**(7.55.1) Identify the total number of initiatives at each stage of development, and for those in the implementation stages, the estimated CO2e savings.**

	Number of initiatives	Total estimated annual CO2e savings in metric tonnes CO2e (only for rows marked *)
Under investigation	0	<i>*Numeric input</i>
To be implemented	54	27492
Implementation commenced	123	333234
Implemented	265	266433
Not to be implemented	0	<i>*Numeric input</i>

**(7.55.2) Provide details on the initiatives implemented in the reporting year in the table below.**

**Row 1**

**(7.55.2.1) Initiative category & Initiative type**

**Energy efficiency in buildings**

Heating, Ventilation and Air Conditioning (HVAC)

**(7.55.2.2) Estimated annual CO2e savings (metric tonnes CO2e)**

28357

**(7.55.2.3) Scope(s) or Scope 3 category(ies) where emissions savings occur**

*Select all that apply*

Scope 2 (market-based)

**(7.55.2.4) Voluntary/Mandatory**

Select from:

Voluntary

#### (7.55.2.8) Estimated lifetime of the initiative

Select from:

6-10 years

#### (7.55.2.9) Comment

*Combination of projects on HVAC optimization/upgrade to high efficiency: pressure optimization, make up air unit improvement, exhaust balance/optimization. Including smart controls associated to the upgrade. Lifetime ranges have been determined as the average of projects within this category.*

**Row 2**

#### (7.55.2.1) Initiative category & Initiative type

##### **Energy efficiency in buildings**

Building Energy Management Systems (BEMS)

#### (7.55.2.2) Estimated annual CO2e savings (metric tonnes CO2e)

7824

#### (7.55.2.3) Scope(s) or Scope 3 category(ies) where emissions savings occur

Select all that apply

Scope 2 (market-based)

#### (7.55.2.4) Voluntary/Mandatory

Select from:

Voluntary

#### (7.55.2.8) Estimated lifetime of the initiative

Select from:

6-10 years

**(7.55.2.9) Comment**

*Combination of mechanical upgrades to higher efficiency motors, implementation of advanced control strategies, and optimization. Lifetime ranges have been determined as the average of projects within this category.*

**Row 3**

**(7.55.2.1) Initiative category & Initiative type**

**Energy efficiency in buildings**

Lighting

**(7.55.2.2) Estimated annual CO2e savings (metric tonnes CO2e)**

3472

**(7.55.2.3) Scope(s) or Scope 3 category(ies) where emissions savings occur**

Select all that apply

Scope 2 (market-based)

**(7.55.2.4) Voluntary/Mandatory**

Select from:

Voluntary

**(7.55.2.8) Estimated lifetime of the initiative**

Select from:

6-10 years

**(7.55.2.9) Comment**

*Replaced lighting from Fluorescent to LED light, installation of light sensors and smart control. Lifetime ranges have been determined as the average of projects within this category.*

**Row 4**

**(7.55.2.1) Initiative category & Initiative type**

**Energy efficiency in production processes**

Process optimization

**(7.55.2.2) Estimated annual CO2e savings (metric tonnes CO2e)**

42033

**(7.55.2.3) Scope(s) or Scope 3 category(ies) where emissions savings occur**

*Select all that apply*

Scope 2 (market-based)

**(7.55.2.4) Voluntary/Mandatory**

*Select from:*

Voluntary

**(7.55.2.8) Estimated lifetime of the initiative**

*Select from:*

6-10 years

**(7.55.2.9) Comment**

*Combination of projects - optimization of uptime, operational parameters adjustments. Optimization of utilities consumption (power, CDA, heat), optimization of process duration. Lifetime ranges have been determined as the average of projects within this category.*

**Row 5**

**(7.55.2.1) Initiative category & Initiative type**

**Energy efficiency in production processes**

- Machine/equipment replacement

**(7.55.2.2) Estimated annual CO2e savings (metric tonnes CO2e)**

1752

**(7.55.2.3) Scope(s) or Scope 3 category(ies) where emissions savings occur**

Select all that apply

- Scope 2 (market-based)

**(7.55.2.4) Voluntary/Mandatory**

Select from:

- Voluntary

**(7.55.2.8) Estimated lifetime of the initiative**

Select from:

- 6-10 years

**(7.55.2.9) Comment**

*Replacement of old equipment with high efficiency systems: chillers, pumps, motors, fans. Lifetime ranges have been determined as the average of projects within this category.*

**Row 6**

**(7.55.2.1) Initiative category & Initiative type**

**Energy efficiency in production processes**

- Compressed air

**(7.55.2.2) Estimated annual CO2e savings (metric tonnes CO2e)**

1831

**(7.55.2.3) Scope(s) or Scope 3 category(ies) where emissions savings occur**

Select all that apply

- Scope 2 (market-based)

**(7.55.2.4) Voluntary/Mandatory**

Select from:

- Voluntary

**(7.55.2.8) Estimated lifetime of the initiative**

Select from:

- 6-10 years

**(7.55.2.9) Comment**

*Compressed Air system optimization: leak reduction, consumption optimization. Lifetime ranges have been determined as the average of projects within this category*

**Row 7**

**(7.55.2.1) Initiative category & Initiative type**

**Fugitive emissions reductions**

- Refrigerant leakage reduction

**(7.55.2.2) Estimated annual CO2e savings (metric tonnes CO2e)**

43485

**(7.55.2.3) Scope(s) or Scope 3 category(ies) where emissions savings occur**

Select all that apply

Scope 1

**(7.55.2.4) Voluntary/Mandatory**

Select from:

Voluntary

**(7.55.2.8) Estimated lifetime of the initiative**

Select from:

Ongoing

**(7.55.2.9) Comment**

*Leakage reduction of refrigerants used in chillers.*

**Row 8**

**(7.55.2.1) Initiative category & Initiative type**

**Non-energy industrial process emissions reductions**

Other, please specify :Abatement

**(7.55.2.2) Estimated annual CO2e savings (metric tonnes CO2e)**

248521

**(7.55.2.3) Scope(s) or Scope 3 category(ies) where emissions savings occur**

Select all that apply

Scope 1

**(7.55.2.4) Voluntary/Mandatory**

Select from:

Voluntary

**(7.55.2.8) Estimated lifetime of the initiative**

Select from:

Ongoing

**(7.55.2.9) Comment**

*Additional installation of abatement units for process greenhouse gases (only new units installed in 2023 are considered). ROI not applicable.*

**Row 9**

**(7.55.2.1) Initiative category & Initiative type**

**Non-energy industrial process emissions reductions**

Process material substitution

**(7.55.2.2) Estimated annual CO2e savings (metric tonnes CO2e)**

134070

**(7.55.2.3) Scope(s) or Scope 3 category(ies) where emissions savings occur**

Select all that apply

Scope 1

**(7.55.2.4) Voluntary/Mandatory**

Select from:

Voluntary

**(7.55.2.8) Estimated lifetime of the initiative**

Select from:

Ongoing

**(7.55.2.9) Comment**

*Replacement of conventional refrigerants/heat transfer fluids with lower GWP alternatives.*

**Row 10**

**(7.55.2.1) Initiative category & Initiative type**

**Non-energy industrial process emissions reductions**

Process material efficiency

**(7.55.2.2) Estimated annual CO2e savings (metric tonnes CO2e)**

17551

**(7.55.2.3) Scope(s) or Scope 3 category(ies) where emissions savings occur**

*Select all that apply*

Scope 1

**(7.55.2.4) Voluntary/Mandatory**

*Select from:*

Voluntary

**(7.55.2.8) Estimated lifetime of the initiative**

*Select from:*

Ongoing

**(7.55.2.9) Comment**

*Optimization of HFC/PFC process gases consumption*

**(7.55.3) What methods do you use to drive investment in emissions reduction activities?**

**Row 1**

**(7.55.3.1) Method**

Select from:

- Lower return on investment (ROI) specification

**(7.55.3.2) Comment**

*Micron defined internal Sustainability ROI and NPV guidelines to prioritize reduction opportunities.*

**Row 3**

**(7.55.3.1) Method**

Select from:

- Other

**(7.55.3.2) Comment**

*Benchmarking on emission reduction solutions in the industry sector*

**(7.73) Are you providing product level data for your organization's goods or services?**

Select from:

- No, I am not providing data

**(7.74) Do you classify any of your existing goods and/or services as low-carbon products?**

Select from:

- Yes

**(7.74.1) Provide details of your products and/or services that you classify as low-carbon products.**

**Row 1**

**(7.74.1.1) Level of aggregation**

Select from:

- Group of products or services

#### (7.74.1.2) Taxonomy used to classify product(s) or service(s) as low-carbon

Select from:

- Other, please specify: Power consumption by application

#### (7.74.1.3) Type of product(s) or service(s)

**Other**

- Other, please specify: electronic components

#### (7.74.1.4) Description of product(s) or service(s)

*Lower power usage and higher performance is the driver in the evolution of our entire product line. As an example, products for the mobile market require dense optimized power efficient solutions while memory and storage solutions for the compute centric markets drive more efficient workload management compared with alternate technologies. Energy efficiency is a key competitive advantage to our products and will continue to be an integral part of the R&D, design and manufacture of our core products. While we continue to focus on energy efficiency in products both across the board and in specific categories such as low power DRAM, we are in the process of updating our definitions and do not currently have a specific revenue estimate for 2023.*

#### (7.74.1.5) Have you estimated the avoided emissions of this low-carbon product(s) or service(s)

Select from:

- No

#### (7.79) Has your organization canceled any project-based carbon credits within the reporting year?

Select from:

- No

## C9. Environmental performance - Water security

### (9.1) Are there any exclusions from your disclosure of water-related data?

Select from:

- Yes

#### (9.1.1) Provide details on these exclusions.

**Row 1**

**(9.1.1.1) Exclusion**

Select from:

- Specific groups, businesses, or organizations

**(9.1.1.2) Description of exclusion**

*Excluded non-manufacturing locations, including office-based activities (design, marketing, sales)*

**(9.1.1.3) Reason for exclusion**

Select from:

- Other, please specify: Volume not significant

**(9.1.1.7) Percentage of water volume the exclusion represents**

Select from:

- Less than 1%

**(9.1.1.8) Please explain**

*Water use is negligible*

**(9.2) Across all your operations, what proportion of the following water aspects are regularly measured and monitored?**

**Water withdrawals – total volumes**

**(9.2.1) % of sites/facilities/operations**

Select from:

- 100%

**(9.2.2) Frequency of measurement**

Select from:

Daily

**(9.2.3) Method of measurement**

*meter*

**(9.2.4) Please explain**

*Water withdrawals (total volume) are tracked across all locations on a daily basis at a minimum*

**Water withdrawals – volumes by source**

**(9.2.1) % of sites/facilities/operations**

Select from:

100%

**(9.2.2) Frequency of measurement**

Select from:

Daily

**(9.2.3) Method of measurement**

*meter*

**(9.2.4) Please explain**

*Water withdrawals (total volume) are tracked across all locations on a daily basis at a minimum*

**Water withdrawals quality**

**(9.2.1) % of sites/facilities/operations**

Select from:

100%

**(9.2.2) Frequency of measurement**

Select from:

Daily

**(9.2.3) Method of measurement**

*online sensors*

**(9.2.4) Please explain**

*Quality of incoming water is tracked across all locations on a daily basis*

**Water discharges – total volumes**

**(9.2.1) % of sites/facilities/operations**

Select from:

100%

**(9.2.2) Frequency of measurement**

Select from:

Daily

**(9.2.3) Method of measurement**

*meter*

**(9.2.4) Please explain**

*Water discharge is tracked across all manufacturing locations - frequency might vary as per local requirement.*

**Water discharges – volumes by destination**

**(9.2.1) % of sites/facilities/operations**

Select from:

100%

#### (9.2.2) Frequency of measurement

Select from:

Daily

#### (9.2.3) Method of measurement

*meter*

#### (9.2.4) Please explain

*Water discharge is tracked across all locations - frequency might vary as per local requirement.*

### **Water discharges – volumes by treatment method**

#### (9.2.1) % of sites/facilities/operations

Select from:

100%

#### (9.2.2) Frequency of measurement

Select from:

Daily

#### (9.2.3) Method of measurement

*meter*

#### (9.2.4) Please explain

*Water discharge by treatment is tracked across all locations on a daily basis*

### **Water discharge quality – by standard effluent parameters**

**(9.2.1) % of sites/facilities/operations**

Select from:

100%

**(9.2.2) Frequency of measurement**

Select from:

Other, please specify: **Continuous** and periodic

**(9.2.3) Method of measurement**

*Online monitoring of critical parameters and periodic monitoring (weekly, monthly) of all parameters in accordance with local requirements.*

**(9.2.4) Please explain**

*Water discharge quality by standard effluent parameters is regularly monitored, reported, and documented by site-level environmental engineering team to ensure compliance with applicable standards/regulations. Discharge monitoring only applies to manufacturing locations then monitored 100%.*

**Water discharge quality – emissions to water (nitrates, phosphates, pesticides, and/or other priority substances)**

**(9.2.1) % of sites/facilities/operations**

Select from:

100%

**(9.2.2) Frequency of measurement**

Select from:

Other, please specify: Periodic

**(9.2.3) Method of measurement**

*Sampling and analytical test*

**(9.2.4) Please explain**

*Periodic monitoring based upon local requirements for these specific parameters where applicable*

### **Water discharge quality – temperature**

#### **(9.2.1) % of sites/facilities/operations**

Select from:

100%

#### **(9.2.2) Frequency of measurement**

Select from:

Other, please specify: Periodic

#### **(9.2.3) Method of measurement**

*Periodic monitoring based upon local requirements for this specific parameter*

#### **(9.2.4) Please explain**

*Temperature of water discharged is regularly monitored at all manufacturing locations. Discharge monitoring only applies to manufacturing locations then monitored 100%*

### **Water consumption – total volume**

#### **(9.2.1) % of sites/facilities/operations**

Select from:

100%

#### **(9.2.2) Frequency of measurement**

Select from:

Monthly

#### **(9.2.3) Method of measurement**

*Calculation: total withdrawal - total water discharge*

**(9.2.4) Please explain**

*Water consumption (total volume) is relevant across Micron manufacturing locations and is therefore monitored across 100% of Micron's manufacturing locations.*

**Water recycled/reused**

**(9.2.1) % of sites/facilities/operations**

*Select from:*

100%

**(9.2.2) Frequency of measurement**

*Select from:*

Monthly

**(9.2.3) Method of measurement**

*Meter and calculation*

**(9.2.4) Please explain**

*Water recycled and reused is regularly monitored and reported across Micron manufacturing locations. Recycled/reused water only applies to and is monitored for 100% of Micron's manufacturing locations.*

**The provision of fully-functioning, safely managed WASH services to all workers**

**(9.2.1) % of sites/facilities/operations**

*Select from:*

100%

**(9.2.2) Frequency of measurement**

Select from:

Continuously

### (9.2.3) Method of measurement

*All facilities (manufacturing and nonmanufacturing) have water supply, adequate sanitation and hygiene service for all workers.*

### (9.2.4) Please explain

*All facilities (manufacturing and non-manufacturing) have water supply, adequate sanitation and hygiene service for all workers.*

**(9.2.2) What are the total volumes of water withdrawn, discharged, and consumed across all your operations, how do they compare to the previous reporting year, and how are they forecasted to change?**

#### Total withdrawals

##### (9.2.2.1) Volume (megaliters/year)

56138

##### (9.2.2.2) Comparison with previous reporting year

Select from:

Lower

##### (9.2.2.3) Primary reason for comparison with previous reporting year

Select from:

Increase/decrease in efficiency

##### (9.2.2.4) Five-year forecast

Select from:

Higher

##### (9.2.2.5) Primary reason for forecast

Select from:

- Facility expansion

#### (9.2.2.6) Please explain

2023 decreased compared to 2022 due to significant investment in water reuse/recycle and manufacturing efficiency. Forecast: significant manufacturing expansion planned in the next 5 years. New factories will be designed with the latest water efficiency and reuse/recycle solutions to minimize water withdrawal.

### Total discharges

#### (9.2.2.1) Volume (megaliters/year)

41819

#### (9.2.2.2) Comparison with previous reporting year

Select from:

- Lower

#### (9.2.2.3) Primary reason for comparison with previous reporting year

Select from:

- Increase/decrease in efficiency

#### (9.2.2.4) Five-year forecast

Select from:

- Higher

#### (9.2.2.5) Primary reason for forecast

Select from:

- Facility expansion

#### (9.2.2.6) Please explain

2023 decreased compared to 2022 due to significant investment in water reuse/recycle and manufacturing efficiency. Forecast: significant manufacturing expansion planned in the next 5 years. New factories will be designed with the latest water efficiency and reuse/recycle solutions to minimize water withdrawal.

## Total consumption

### (9.2.2.1) Volume (megaliters/year)

14319

### (9.2.2.2) Comparison with previous reporting year

Select from:

Lower

### (9.2.2.3) Primary reason for comparison with previous reporting year

Select from:

Increase/decrease in efficiency

### (9.2.2.4) Five-year forecast

Select from:

Higher

### (9.2.2.5) Primary reason for forecast

Select from:

Facility expansion

### (9.2.2.6) Please explain

2023 decreased compared to 2022 due to significant investment in water reuse/recycle and manufacturing efficiency. Forecast: significant manufacturing expansion planned in the next 5 years. New factories will be designed with the latest water efficiency and reuse/recycle solutions to minimize water withdrawal.

**(9.2.4) Indicate whether water is withdrawn from areas with water stress, provide the volume, how it compares with the previous reporting year, and how it is forecasted to change.**

**(9.2.4.1) Withdrawals are from areas with water stress**

Select from:

Yes

**(9.2.4.2) Volume withdrawn from areas with water stress (megaliters)**

10000

**(9.2.4.3) Comparison with previous reporting year**

Select from:

Higher

**(9.2.4.4) Primary reason for comparison with previous reporting year**

Select from:

Change in accounting methodology

**(9.2.9) Within your direct operations, indicate the highest level(s) to which you treat your discharge.**

**Tertiary treatment**

**(9.2.9.1) Relevance of treatment level to discharge**

Select from:

Relevant

**(9.2.9.2) Volume (megaliters/year)**

41819

**(9.2.9.3) Comparison of treated volume with previous reporting year**

Select from:

Lower

**(9.2.9.4) Primary reason for comparison with previous reporting year**

Select from:

Increase/decrease in efficiency

**(9.2.9.5) % of your sites/facilities/operations this volume applies to**

Select from:

100%

**(9.2.9.6) Please explain**

*Increased onsite reuse/recycle with a decrease in discharge*

**Secondary treatment**

**(9.2.9.1) Relevance of treatment level to discharge**

Select from:

Not relevant

**(9.2.9.6) Please explain**

*Not applicable*

**Primary treatment only**

**(9.2.9.1) Relevance of treatment level to discharge**

Select from:

Not relevant

**(9.2.9.6) Please explain**

*Not applicable*

**Discharge to the natural environment without treatment**

**(9.2.9.1) Relevance of treatment level to discharge**

Select from:

Not relevant

**(9.2.9.6) Please explain**

*Not applicable*

**Discharge to a third party without treatment**

**(9.2.9.1) Relevance of treatment level to discharge**

Select from:

Not relevant

**(9.2.9.6) Please explain**

*Not applicable*

**Other**

**(9.2.9.1) Relevance of treatment level to discharge**

Select from:

Not relevant

**(9.2.9.6) Please explain**

*Not applicable*

**(9.2.10) Provide details of your organization’s emissions of nitrates, phosphates, pesticides, and other priority substances to water in the reporting year.**

Emissions to water in the reporting year (metric tons)	Categories of substances included	Please explain
0	Select all that apply <input checked="" type="checkbox"/> Pesticides	<i>we do not use pesticides in our manufacturing process.</i>

**(9.3) In your direct operations and upstream value chain, what is the number of facilities where you have identified substantive water-related dependencies, impacts, risks, and opportunities?**

**Direct operations**

**(9.3.1) Identification of facilities in the value chain stage**

Select from:

Yes, we have assessed this value chain stage and identified facilities with water-related dependencies, impacts, risks, and opportunities

#### (9.3.2) Total number of facilities identified

3

#### (9.3.3) % of facilities in direct operations that this represents

Select from:

1-25

#### (9.3.4) Please explain

*Micron uses the WRI water risk assessment tool Aqueduct (latest version 4.0) to identify regions/areas exposed to water risk. Three of our facilities (Xi'an - China, Boise - Idaho, and Manassas - Virginia) operate in areas with high water stress, for a total 18% of water withdrawn from regions with high baseline water stress.*

### Upstream value chain

#### (9.3.1) Identification of facilities in the value chain stage

Select from:

No, we have not assessed this value chain stage for facilities with water-related dependencies, impacts, risks, and opportunities, and are not planning to do so in the next 2 years

#### (9.3.4) Please explain

*We will evaluate the upstream water risk based upon CDP Supply Chain responses*

**(9.3.2) For the facilities in your direct operations referenced in 9.3.1, what proportion of water accounting data has been third party verified?**

### Water withdrawals – total volumes

#### (9.3.2.1) % verified

Select from:

76-100

**(9.3.2.2) Verification standard used**

*ISAE 3000*

**Water withdrawals – volume by source**

**(9.3.2.1) % verified**

Select from:

76-100

**(9.3.2.2) Verification standard used**

*ISAE 3000*

**Water withdrawals – quality by standard water quality parameters**

**(9.3.2.1) % verified**

Select from:

Not verified

**(9.3.2.3) Please explain**

*not verified*

**Water discharges – total volumes**

**(9.3.2.1) % verified**

Select from:

76-100

**(9.3.2.2) Verification standard used**

ISAE 3000

**Water discharges – volume by destination**

**(9.3.2.1) % verified**

Select from:

76-100

**(9.3.2.2) Verification standard used**

ISAE 3000

**Water discharges – volume by final treatment level**

**(9.3.2.1) % verified**

Select from:

Not verified

**(9.3.2.3) Please explain**

*not verified*

**Water discharges – quality by standard water quality parameters**

**(9.3.2.1) % verified**

Select from:

Not verified

**(9.3.2.3) Please explain**

*not verified*

**Water consumption – total volume**

**(9.3.2.1) % verified**

Select from:

76-100

**(9.3.2.2) Verification standard used**

ISAE 3000

**(9.4) Could any of your facilities reported in 9.3.1 have an impact on a requesting CDP supply chain member?**

Select from:

This is confidential

**(9.5) Provide a figure for your organization's total water withdrawal efficiency.**

Revenue (currency)	Total water withdrawal efficiency	Anticipated forward trend
16181000	288.24	Revenue-based efficiency is a highly variable (and therefore poor) metric in a cyclical industry. Micron does not project a trend.

**(9.14) Do you classify any of your current products and/or services as low water impact?**

Products and/or services classified as low water impact	Primary reason for not classifying any of your current products and/or services as low water impact	Please explain
Select from: <input checked="" type="checkbox"/> No, and we do not plan to address this within the next two years	Select from: <input checked="" type="checkbox"/> Judged to be unimportant, explanation provided	Micron's products do not use water, and generally do not have implications for water use.

**(9.15) Do you have any water-related targets?**

Select from:

Yes

**(9.15.1) Indicate whether you have targets relating to water pollution, water withdrawals, WASH, or other water-related categories.**

	Target set in this category	Please explain
Water pollution	Select from: <input checked="" type="checkbox"/> No, and we do not plan to within the next two years	na
Water withdrawals	Select from: <input checked="" type="checkbox"/> Yes	Rich text input [must be under 1000 characters]
Water, Sanitation, and Hygiene (WASH) services	Select from: <input checked="" type="checkbox"/> No, and we do not plan to within the next two years	na
Other	Select from: <input checked="" type="checkbox"/> Yes	Rich text input [must be under 1000 characters]

**(9.15.2) Provide details of your water-related targets and the progress made.**

Row 1

**(9.15.2.1) Target reference number**

Select from:

Target 1

**(9.15.2.2) Target coverage**

Select from:

Organization-wide (direct operations only)

**(9.15.2.3) Category of target & Quantitative metric**

**Other**

Other, please specify: Water reuse, recycle and restoration

**(9.15.2.4) Date target was set**

12/31/2019

**(9.15.2.5) End date of base year**

12/30/2020

**(9.15.2.6) Base year figure**

50

**(9.15.2.7) End date of target year**

12/30/2030

**(9.15.2.8) Target year figure**

75

**(9.15.2.9) Reporting year figure**

68.8

**(9.15.2.10) Target status in reporting year**

Select from:

Underway

**(9.15.2.11) % of target achieved relative to base year**

75

**(9.15.2.12) Global environmental treaties/initiatives/ frameworks aligned with or supported by this target**

Select all that apply

None, no alignment after assessment

**(9.15.2.13) Explain target coverage and identify any exclusions**

*all manufacturing facilities*

**(9.15.2.14) Plan for achieving target, and progress made to the end of the reporting year**

*Water conservation goal: combination of internal reuse and recycled water and external restoration projects. We achieved 68.8% in CY23 with a 4% increase compared to CY22 performance.*

**(9.15.2.16) Further details of target**

*In the 2024 sustainability report we provided an update on progress toward Water Stewardship Goal. <https://www.micron.com/about/our-commitment/operatingthoughtfully/sustainability>*

### **C13. Further information & sign off**

**(13.1) Indicate if any environmental information included in your CDP response (not already reported in 7.9.1/2/3, 8.9.1/2/3/4, and 9.3.2) is verified and/or assured by a third party?**

**Other environmental information included in your CDP response is verified and/or assured by a third party**

Select from:

Yes

**(13.1.1) Which data points within your CDP response are verified and/or assured by a third party, and which standards were used?**

**(13.1.1.1) Environmental issue for which data has been verified and/or assured**

Select all that apply

Climate change

Water

### (13.1.1.2) Disclosure module and data verified and/or assured

#### Environmental performance – Water security

- Water consumption– total volume
- Water discharges– total volumes
- Water withdrawals– total volumes
- Water withdrawals – volumes by source
- Water discharges – volumes by destination
- Water discharges – volumes by treatment method
- Volume withdrawn from areas with water stress (megaliters)

### (13.1.1.3) Verification/assurance standard

#### General standards

- ISAE 3000

### (13.1.1.4) Further details of the third-party verification/assurance process

*Limited assurance*

### (13.1.1.5) Attach verification/assurance evidence/report (optional)

[2024-micron-assurance-statement.pdf](#)

**(13.3) Provide the following information for the person that has signed off (approved) your CDP response.**

#### (13.3.1) Job title

*Vice President, EHS & Sustainability*

#### (13.3.2) Corresponding job category

*Select from:*

- Chief Sustainability Officer (CSO)
